

## RANSOM DEMANDED FOR PRIEST HELD IN MOUNTAINS

**Captors Threaten Death to  
Missing Colima Pastor  
Unless \$50,000 Is Paid**

(By International News Service)  
SAN FRANCISCO, Aug. 5.—In chains and severely beaten, Father Patrick E. Heslin, pastor of Holy Angels church, of Colima, lies in a "boot-leggers' cellar" somewhere in the hills of San Mateo county, according to a letter received at St. Mary's cathedral, demanding \$50,000 ransom for his release.

The letter was made public today by Chief of Police O'Brien. The letter, partially typewritten and partially scrawled in a patently disguised handwriting, declared that beside the missing priest were sufficient chemicals to cause his death from noxious gases.

**IN TORTURE CHAMBER**  
A burning candle, the letter said, would ignite these chemicals, causing his death, if the ransom is not paid. Apparently, from the letter, the priest is undergoing constant torture, as the writer declared the candle would be kept constantly burning if the ransom was not forthcoming, permitting it to set fire to the chemicals.

Father Heslin was last seen Tuesday night by his housekeeper. At that time, according to her, a man came to the parish house and asked Father Heslin to accompany him to the bed of a dying friend. The man appeared greatly excited, the housekeeper stated.

**SEARCH WITH PLANES**  
Sheriff Michael Sheehan, of San Mateo county, headed a posse which left Redwood City early today to search through the hills for traces of the band that is believed to be holding the priest. San Francisco officers headed another posse, and members of the Knights of Columbus, including delegates to the international convention, gathered at Redwood City today to place themselves under the direction of peace officers conducting the search.

## LAWN SOCIAL FOR THE J. O. C. CLASS

The J. O. C. Class of the First Methodist Church was entertained last evening by Mrs. F. J. Matthiesen at her home, 721 East Windsor road. It has an enrollment of 110 members, but so many are away for vacation trips that less than the usual attendance was present.

The lawn had been hung with Japanese lanterns, electrically lighted, and the brief business session and program took place out of doors in this pretty setting. The chief business transacted was the appointment of a nominating committee to prepare a slate of officers to be voted upon at the next meeting.

Indoor and outdoor games were played and refreshments were served by Mrs. Matthiesen, assisted by Misses Alice Payne, Lydia Rheberg, Irma Nicholas, Mrs. Frank Kerne and Mrs. John Wilson.

## TWO FIRE LADDIES ALWAYS ON DUTY

Two firemen will be maintained at Fire Station No. 2 continuously, in the future, through an arrangement made by the city manager, with the approval of the council last night, whereby Fire Chief Lankford will hereafter live in quarters prepared for him by the city at the station.

"This arrangement with the additional firemen for this station after September 1," reported the city manager, "will make it possible to maintain two men there continuously."

## WALKS IN SLEEP; EXPECTED TO DIE

SAN FRANCISCO, Aug. 5.—Ben Koen, dairyman, walking in his sleep, fell from a third floor window of his home at 734 Howard street, into a narrow light well. Half way down his body wedged between the sides of the light well. A fire company was required to extricate him. At the central emergency hospital it was reported he may die from internal injuries.

## SELLS NEW BUNGALOW

James W. Pearson, real estate agent, has made several sales during the past few days, the most important of which was a new bungalow at 412 West Harvard, to Mr. and Mrs. George W. Kelser, from Ohio. The Kelser's have owned five homes since coming to Glendale, two of which were sold them by Mr. Pearson.

## WHAT GLENDALÉ NEEDS

Glendale is a good place in which to live, but it might be better. A few things are still needed to make it complete. So believes City Manager Watson, who, like many of Glendale's leading citizens, is ever looking forward.

Here are a few of the things Mr. Watson believes Glendale needs and should never let up until she gets:

- An independent postoffice.
- A Southern Pacific depot, properly located.
- A large tourist hotel.
- An adequate sewer system.
- A system of better streets and boulevards.
- Better transportation facilities between Glendale and Los Angeles.

The water problem of Glendale has been solved and the lighting system could hardly be improved upon. Still—there is room for improvement.

## MERCHANTS' CREDIT CHECK SYSTEM IS URGED

Efforts to organize a Glendale Credit Men's association will be concentrated during the early part of September, rather than during the present month, according to a statement made this morning by C. E. Neale, of the Neale & Gregg Hardware company, who is one of the active leaders in the movement.

"The change in plans, which originally called for a series of meetings of merchants this month with a view to determining upon some definite course relative to the formation of such an association, have been shifted over until September," pointed out Mr. Neale, "because a great many business men are away on vacations. It is also felt that the Merchants' Exposition, to be held here the latter part of this month, will serve to bring local merchants more closely together. Cooperation is necessary if a credit association is to be successful."

J. W. Lewis, assistant cashier of the Union Bank and Trust company, of Los Angeles, in a recent article appearing in "The Retail Merchants' Credit association of Los Angeles," points out that the expense of practically every business is due primarily to the extension of credit.  
"This," says Mr. Neale, "is the conviction we are anxious to foster in Glendale. It is certain that business here cannot develop to a much greater extent, unless we have some adequate means of determining the credit capacity of a prospective customer. A credit association is the sensible conclusion of every ambitious merchant. It is the only way that business men here may put themselves on a footing of competition with Los Angeles merchants."

## K. OF C. ADJOURN WITHOUT DATE

(By International News Service)  
SAN FRANCISCO, Aug. 5.—Without naming the place of meeting for the 1922 international convention, this year's Knights of Columbus conclave adjourned formally today.

The last bid for the 1922 meet came from Florida, Governor Cary A. Hardee wiring Supreme Knight James A. Flaherty in the name of the people of Florida, and urging the Knights to hold their next convention in Jacksonville. General sentiment of the Knights of Columbus delegates was for Canada, however.

The Knights will immediately start their history and Italian Welfare Work campaign, Supreme Knight James A. Flaherty announced.

## DOING MUCH NEW WORK

The Saunders Paint Company have several big jobs under way. Among them the big Kranz business block, two building for L. B. Cline, a residence for Mr. Hankey on Milford, the Dr. Ketchum home and the residence of Miss O. Brown at Dixon and Louise.

## MISSIONARY MEETING

The monthly missionary meeting of the Christian Church will be held next week in connection with the annual picnic, which is to take place Wednesday at Echo Park. Members will leave Glendale on the 2 p. m. car and the picnic supper will be served at 6:30.

## JAIL DOORS TO OPEN

DUBLIN, Aug. 5.—The Irish Republicans expect that all members of the Dail Eireann who are now in jail, will be released within 48 hours, according to announcement made today at Sinn Fein headquarters.

## BROWN OF GLENDALÉ IGNORES SOVIET OF RUSSIA

(By International News Service)

LONDON, Aug. 5.—Walter L. Brown, director of American relief in Europe, has declined the soviet's invitation to go to Moscow to discuss in detail the plans and conditions of America's help to the starving, disease-ridden millions of the interior. Director Brown said today that he was only going to Riga and would not enter Russia proper unless something unforeseen develops.

Headquarters for the distribution of American food, clothing and medicines will be established at Riga. According to present plans the supplies at Riga will be taken over by the soviet, which will distribute them through agencies created at Moscow. In that event, no American relief workers will go behind the Russian frontier.

## GLENDALÉ VISITOR AT FAMILY DINNER

Mr. and Mrs. C. D. Lusby, of Park avenue, and their daughter, Mrs. Harold Latter, recently arrived from Oakland, were guests last evening at a family dinner given by Mr. and Mrs. E. U. Emery at their home, 329 North Kenwood street, at which their son, Owen Emery, and his bride, were also guests. So many old friends of Mrs. Latter want to entertain her that her days are well filled with engagements. Tonight, she and her parents will be entertained by her brother and sister-in-law, Dr. and Mrs. Ralph Lusby, of San Fernando.

## WEDDING BELLS FOR GRACE TAYLOR

Mrs. Grace H. Taylor, who has been a resident of this city for about seven years, and Melvin R. Cline of Los Angeles, were quietly married Thursday afternoon at the home of the groom's sister in Los Angeles, where a wedding reception was held the same evening. Only immediate relatives of bride and groom witnessed the ceremony.

Accompanied by the bride's little son Leighton Taylor, they are leaving for Little Bear Lake, and will be at home to their friends after September 1, at 332 Burchett street, this city.

Mrs. Cline is a fine business woman and has been employed in the office of County Flood Control of Los Angeles.

## TRAFFIC VIOLATORS

Domingo Amestoy, 1659 Hobart boulevard, Los Angeles, was taken in yesterday for driving 33 miles an hour on Windsor road. J. H. Phillips, 610 West California street, Glendale, and W. B. Nissen, 148 North Fair Oaks, Pasadena, were tagged for operating their machines with open mufflers. A. D. Burghardt, 1753 West Thirty-first place, Los Angeles, was arrested for driving his car on the wrong side of the street.

## GELMOR NOT DISCOURAGED

Though no trace of the stock of cloth stolen from the store of A. Gelmor, tailor, at 138 South Brand boulevard, on July 13, has been found, the Nick Harris Detective Agency, which is handling the case, reports that various clues are engaging its attention. A new line of goods has been ordered by Mr. Gelmor, and business will be back to normal in a very short time.

## PAVING OF STREETS IS BLOCKED BY CITY COUNCIL

**Councilman Stephenson Holds  
Up Improvements on  
Doran and Orange**

Improvements of Doran, Everett, Geneva streets and Lexington drive, and for the surfacing of Orange street between Lexington drive and Milford streets, were tabled at the meeting of the City Council last night, after considerable discussion on the reports of the city manager, which, in the first instance, had recommended that Doran street be eliminated from the improvement district and that one half of the roadway of Doran, Everett and Geneva streets be also eliminated and the roadway next to the school property be oiled, until such time as the school budget would permit of paying for the assessments on improvements.

In the Lexington drive, Milford and Orange street improvement, a three inch macadam roadway was recommended for Orange street. Councilman Stephenson moved that both communications be filed and put on the calendar for the next meeting.

In reporting on the Doran street proposition, the city manager, indicated that the improvements had been ordered sometime ago, preparations had been started, and had been halted because of the decision of the board of education, that, owing to the rapid increase of the school attendance, caused by the recent growth of the city, and the subsequent increase in the cost of maintaining the schools, that it would be impossible to meet the assessment.

## WOULD CUT DISTRICT

Rather than halt the improvements, which as originally planned would cost the board of education \$3,600 out of its fund, the city manager made his recommendation that Doran street be eliminated, together with one half of the roadway of Doran, Everett and Geneva streets from the improvement proceedings.

"This is not an ideal plan," he admitted, "but is the only plan that can be pursued unless the whole matter be delayed for one year, which would seem inadvisable. It is possible that some plan can be worked out afterward, whereby the roadway next to the school property may be oiled temporarily until the board is in position to have the pavement installed."

## ORANGE STREET PLAN

Regarding the improvement at Orange street, between Lexington drive and Milford street, the city manager advised that it would be well to proceed with the improvement of this block of Orange street without delay because the entire street frontage north of Broadway, contributed to the cost of opening and it would receive no benefit from the opening, until the street was improved. He recommended the inclusion of Milford street, between Brand boulevard and Central avenue, in the improvement district and that the improvements consist of sidewalks, curbs, and three-inch macadam roadway, thirty-six feet wide. The pavement on Lexington drive is to be five inch macadam. He recommended the Orange street block south of Lexington drive, now in oil gravel, be replaced with three-inch macadam.

## BRAND WIDENING PLAN APPROVED

Widening of Brand boulevard at San Fernando road, reached the grade ordinance at the meeting of the City Council last night. The city manager reported to the Council that Harry White had filed a deed with the city for that portion of his land that is required in connection with the widening of the thoroughfare. Other easements are scheduled to arrive in the next few days. The Pacific Electric railway and the Board of Education have consented to grant easements. On the basis of the report, the City Council passed the ordinance, instructing the city engineer to begin work.

## R. H. CRETSINGER IS HELD FOR TRIAL

R. H. Cretsinger, who was arrested on June 20 on San Fernando road and charged with driving an automobile while intoxicated, was examined before Judge Lowe this morning and held to answer to the superior court, cash bail being fixed at \$300.

## COUNCIL KEEPS CITY'S PLEDGE TO GRAND VIEW

**Adequate Water Supply Is Ordered on Recommendation of  
Manager Watson—Sierra Avenue District  
Also in Line for a Similar Service**

Thirty thousand dollars, approximately, will be expended by the city for the water distribution system in Municipal District No. 4, covering one mile and a half in the direction of Burbank, as the result of the approval last night of plans and specifications submitted by City Manager Watson to the City Council. The cost of material is estimated at \$23,169.81. The remainder of the estimate is for labor. Bids will be advertised for September 1. The installation will consist largely of eight-inch mains laid in the main streets of the Grand View district, and when installed, will constitute a complete water distribution system for the district. This does not include the service mains, which will be installed at the expense of the property holders.

## ANSWER TO PROTEST

This was the answer of the city to the recent protest of J. H. Randall, of the Grand View district, that the city was not keeping its promises to the people of his section, except by planting a few trees.

In connection with the protest, City Manager Watson submitted to the Council that immediately upon the annexation of the district to Glendale the electrical distribution system owned by Burbank was purchased for \$1290.96, and the commercial lighting of the city extended to the district. The city then expended \$7796 in electrical distribution developments. Thirty-three street lights were installed.

"There has been invested by Glendale," reported the city manager, "in improvement to the water system that will serve that district, \$61,700. Without these investments the district would have no prospects, as matters stand, for a water supply."

## CAUSE OF DELAY

The only reason the supply has been delayed was owing to the completion of the bond proceedings, according to the city manager. He detailed that fire hydrants had been installed, that the San Fernando road is paved throughout and is in good condition, as is Grand avenue and Tenth street. Vine avenue has been oiled, and

## RABIES EVIDENCE RESULT OF TEST

The biological laboratory of Los Angeles reports that the head of the dog shot last Wednesday, by Glendale police on Arden avenue and sent to the laboratory for examination, shows absolute evidence of rabies. So reports Dr. J. E. Eckles, city health officer, this morning. The doctor added that the dog was a stray, which cannot be traced, and that it may have come from the hills, where it had been bitten by a skunk or a coyote. These wild animals are the chief agents for the spread of rabies, he says.

A valuable dog belonging to an Arden avenue resident was bitten by the animal and will be sent to the Pasteur Institute for treatment.

Dr. Eckles is watching the situation closely and should the need arise will ask the City Council to again put into effect its muzzling ordinance. Los Angeles is considering drastic measures to stamp out rabies, he reports.

## SEWER TRUNK LINE FOR WOODLANDS

Bids for the material for extension of the sewer trunk line in Municipal Improvement District No. 3, Verdugo Canyon, to protect the water supply, which has been funded by bonds in the district, after five years' work, will be advertised for on September 1, as the result of the action of the City Council last night, on the report of the city manager, including specifications for the installation. The estimated cost of the installation was given as \$31,296.57.

## PICNIC AT BROOKSIDE

Members of the Women's Auxiliary and the Missionary society of the Glendale Congregational church will have a picnic at Brookside park next Thursday from 2 to 7 p. m. Husbands and sons will join the ladies in a picnic supper.

streets there have been repaired, although the city does not usually do any highway work. The city engineer is working on levels for the institution of official grades. A regular can collection has been established in substitution for garbage collection, since only two residents desire garbage collection. The sanitary inspector has been over Grand View, according to the city manager, and found no cause for complaint.

The Council ordered that a copy of the report of the city manager be sent to Mr. Randall for his information as to what the city is doing for the new district.

In connection with affairs at Grand View, the City Council authorized Hamlin & Hepburn to establish water service on Tract No. 4198, by laying two-inch mains on Vine street, to serve the tract, and a two-inch main along the Pacific Electric right-of-way, and a four-inch main along Raymond avenue. All of the expense is to be borne by the firm. The cost will be about \$1400. In giving permission, the Council reversed its action of last week.

## SIERRA AVENUE DISTRICT

The only way water supply can be furnished the Sierra avenue district, should it decide to annex itself to Glendale, is for it to have a pump and reservoir installed in connection with the distribution system and the people of the district pay for it, according to City Manager Watson, reporting to the City Council last night.

"Unless they are willing to wait until the proposed works in Verdugo Canyon are installed," he said, "which may take two or three years."

The city manager took exception to the statement by P. S. McNutt of the district, that the proposed pumping plant would be a temporary measure and objecting to the residents paying for it.

The City of Glendale, declared the city manager, would be meeting the people of the district halfway by incurring the additional expense of pumping the water for that district and selling it to them at the same rates that it is being sold in other portions of the city where the water will not have to be raised the second time.

## MECHANICS' LIEN CAUSE OF DELAY

Only a mechanics' lien against property owned by I. Ross Kurtz, impedes the dedication of Dorothy drive, according to the report of the city manager upon that thoroughfare to the City Council.

The question as to whether this lien was not outlawed, was referred to the city attorney for investigation. Mr. Kurtz cannot be located.

The city has secured a certificate of title covering the dedication of lots A and B, Tract No. 2685, for street purposes as Dorothy drive, which were submitted to the Council, together with a quit claim deed from the First National bank of Glendale and the Title Guarantee and Trust company of Los Angeles, and has received a check for \$27.90 from Frank W. Stanley in payment of the cost of the certificate of title and claims against these lots, which are, or were, owned by Kurtz, but has no discharge of the mechanic's lien. Mr. Stanley had searched for Kurtz, he said, but could not find him, and asserted that the lien was outlawed and urged that the deeds be accepted as presented.

## CHURCH SOCIETY PICNIC

Fifty members of the Home and Foreign Missionary societies and the Ladies Aid of the First Methodist church of this city, combined their regular monthly session with a picnic at Echo park yesterday. Autos conveyed the picnicers to the park, where they enjoyed a regular picnic spread. Business was dispatched at a brief session which followed the luncheon, leaving the afternoon free for boating and other pleasures, the affair breaking up at 4 p. m.

## BUTTS FAMILY RETURNS

H. M. Butts, of the Monarch Auto Supply company, Mrs. Butts and their son, Horatio, have just returned from a two weeks' outing at Lake Tahoe.

## 45 EXHIBITORS WILL SHOW GOODS; ALL ARE LIVE MEN

**Retail Exposition Here To Be  
Clearing House of Good  
Will and Optimism**

"The merchants of Glendale are live wires," declared H. Elmo La Breque, manager and director of the Merchants' Exposition, today, closing up the final details of the big retail show to be staged here, beginning August 27.

"In no place in Southern California have we had less trouble to convince merchants of the benefit of such a show," he added. "Not only the merchants, but the buying public, are interested in the show."

"We have practically closed up the listings and we have more applicants than we can take care of."

"This will not be a small town show, for it will be the equal of any ever held in the Southland. This will be true because of the quality and variety of merchandise that will be shown, which is far above the average."

"In all, forty-five exhibits have been arranged for, which is remarkable in any community."

"When the show opens, every merchant will be in his booth with goods to sell as well as to show, and with the intense interest developing among the people, there is no question that the merchants will be able to fund the expense of the show from their sales alone, without considering the value of the new friends and new customers developed."

"In a city of such rapid growth as Glendale, the problem of the merchant is to get acquainted with the newcomers as fast as they pour in. There is no time available for the usual process of good will making, for the city is a sea of good will, as yet unattached, ready to make trade connections. In this situation, a show like the Merchants' Exposition will tell the people where to go and where to buy any sort of article on sale in the community. In this way it benefits the consumer as well as the merchant."

## METHODIST CHOR IN SOCIAL SESSION

Members of the choir of the Central Avenue Methodist church were entertained last evening at the home of Mr. and Mrs. E. E. Harwood, on Cypress avenue, and given a very pleasant social evening, following the regular rehearsal. The host and hostess were assisted in their hospitable intent by Harry Marple, who was made director of the choir, after his return from Mexico. The serving of ice cream and cake rounded out the pleasures of the evening.

Saturday evening, teachers and officers of the Sunday school, led by James Brown, the superintendent, will motor to Griffith park for a picnic supper, to be served at 6 o'clock, and followed by a business meeting and social evening.

## CITY LENDS COIN TO LIBRARY BOARD

Four hundred dollars, to meet part of the July payroll, was loaned to the library board last night by the Council, by transferring the amount from the general budget fund to the library fund, to be returned during December, on the recommendation of the city manager.

Just how the library fund had become insufficient, was not explained by the city manager, who promised a detailed report upon the financing of both the general budget fund and the library fund at the next meeting of the Council.

## JOHNSON AIDS LEMON GROWERS

Senator Hiram Johnson has introduced an amendment to raise all duties on lemon by-products and to take from the free list certain articles which could be imported without duty to undersell all the by-products of California lemon growers. The amendment would increase duties as follows: Citric acid from 12 to 20 cents a pound; citrate of lime from 7 to 12 cents; orange and lemon oil from 20 to 40 per cent of the value.

## BRITISH WIN

COWES, Eng., Aug. 5.—England today clinched the British-American cup for six-meter yachts, winning by a point score of 79 to 54. In today's race, the Grebe, American, finished first, with the Polly and Flra, English, finishing second and third.

### FREE RIDE OFFER TO MANHATTAN BEACH

Glendalians are being offered the chance of a free ride to Manhattan Beach every day in the week except Friday. J. W. Allen is in charge of the excursions, which leave at 10:15 a. m., from the Pope & Tollett candy store, 111 South Brand boulevard. Persons desiring reservations may secure

them by telephoning Glendale 1000-W. It is a 50-mile trip through a beautiful country, and ends at Peck's Manhattan Beach Tract, which has been put upon the market by the George H. Peck company, 508 Hollingsworth building, Los Angeles. This company is not only offering lots at as low a figure as \$250, but is permitting buyers to build after the first payment is made.

### NATIONAL TENNIS CHAMPION IN FORM

(By International News Service) NEW YORK, Aug. 5.—Mrs. Molla Bjurstedt Mallory, with two victories in one day in the women's metropolitan tennis singles tourney, has demonstrated that she is close to form, despite her long ocean voyage. The national champion has reached the

round before the semi-final, while Mrs. Marian Sinderstein Jessup, of Wilmington, Del., will meet the winner between Mrs. Leroy and Mrs. Huff, both of New York, to reach the final round. Mrs. Jessup is the Metropolitan champion. The tourney developed a feature in the playing of Miss Helen Willis, 15-year-old San Francisco girl, who forced Mrs. Jessup to the limit to defeat her in yesterday's round.

### OUR MOTTO—

"WE DO NOT SELL CHEAP PRODUCTS;  
WE SELL GOOD PRODUCTS CHEAP"

Yours truly,

## DAVID DONWELL

### MRS. F. W. WEBB HONORS FRIEND

With a four-course luncheon that was charming in all its appointments, Mrs. F. A. Webb, of this city, entertained Thursday at the Annandale club house in honor of Mme. Linne, her friend and former voice teacher, who has been at the Chicago Conservatory of Music for the past twenty-five years.

Mme. Linne comes from Norway, the home of Jennie Lind and Christine Nilsson, and her place was marked by a little Norwegian flag. Places for other guests were indicated by postcards picturing Norwegian scenes.

The luncheon was served in the sun-parlor of the club house, and the floral centerpiece of bachelor buttons and daisies was in harmony with the blue and gold rugs and hangings of the room.

The guest list included Mrs. Waite, of Los Angeles, a composer of verse who formerly lived in Chicago, and who is an old friend of Mme. Linne; Miss May Oloctt, the well-known pianiste of Los Angeles; Mrs. Ella Richardson, Mrs. Alexander Mitchell and Mrs. Helen Sawyer, daughter of the hostess, all of Glendale, and Miss Florence Middaugh, of Los Angeles, soloist of the Church of Christ, Scientist, of Hollywood, who is coaching with Mme. Linne during her stay here.

Following the luncheon, Miss Middaugh sang very beautifully, "Caravan," "Rain," and a French and an Italian song. Mme. Linne also favored the company with a sweet little Norwegian folk song.

After a pleasant social afternoon on the porch of the club house, the entire party came to Glendale to the home of Mrs. Webb, 303 North Louise street, where they were received by her granddaughter, Margaret Sawyer,

### WELL! WELL!!

SEATTLE, Wash., Aug. 5.—Men—because they are "inconsiderate and impatient"—are more to blame for the wrecking of matrimonial ships than women.

At least that is the opinion of Miss Esther V. Johnson.

Miss Johnson is only twenty-three years old, it is true, but she is better qualified to judge than most women, for she has just been appointed divorce proctor for King County, following a successful service as assistant prosecuting attorney. She is a graduate of the University of Washington law school.

"Of course, there are many women who are wholly to blame," she said, discussing divorce cases which she had handled, "but the average man, I believe, is apt to be inconsiderate and impatient."

dressed in a Norwegian peasant costume, which Mrs. Webb had brought from Norway, with other curios, in 1912.

During the half hour before she returned to Los Angeles, Mme. Linne sang one of the most beautiful of the folk songs of Norway. She also examined with great interest the pictures of King Kaakon and his queen, which Mrs. Webb had hung in a conspicuous place, and the postcard collection her hostess had gathered, of Norwegian scenes.

George E. Stanley, son of W. H. Stanley of 738 South Maryland, is well pleased with the news that he has been admitted to the Agricultural department of the Southern Branch of the University of California, especially in view of the fact that many are finding it very difficult to secure admittance.

### BIRTHDAY PARTY FOR SARA BAKER

Fourteen little boys and girls had a chance to enjoy a party in celebration of the fifth birthday of Sara Francis Baker, which took place Thursday afternoon at the home of her aunt, Mrs. E. Rumble, 111 North Central avenue.

The refreshment table, draped with vines and centered with a handsome birthday cake, bearing five candles, was spread upon the lawn.

A delightful afternoon of games directed by Mrs. H. L. Bager, mother of the honoree, entertained the little folks and ice cream and cake were served about four o'clock. After that a kodak picture of the children was snapped. The group included besides Sara Francis, her sister, Janice Baker, Herman Daniels, Virginia and Helen Crain of Los Angeles, Mavis, Dorine and Francis O'Conner, Maude Edwards, George and Esther Brewster, Willard, Raymond and Ruth Leeds. The little celebrant was the recipient of many pretty gifts.

### CLASS IN NURSING

Miss Helen McAlonan, public health nurse of Glendale, will have charge of a class in home nursing and hygiene, which will start its work in a few weeks.

Miss McAlonan is particularly fitted to carry on this work, due to her excellent training, her long experience in private nursing and her diversity of work with the Red Cross in the late war.

There is an enrollment fee, and the course is so arranged as to be of special benefit to mothers, as well as to young women.

A vacation would be much more satisfactory if the old pocketbook could enjoy the rest also.

# Plumbing Done Along Scientific and Improved Methods

### Makes no noise

This is the Maddock Madera Silent Closet which is so quiet in operation that its action cannot be heard beyond the bathroom walls. Made entirely of easily cleaned, almost unbreakable vitreous china, it will give a lifetime of service and satisfaction.

Ask us to estimate the cost of installing this fixture in your home. It probably will be less than you think.

Hunsberger  
Local Agent

THE BEST IS  
NONE TOO GOOD  
IN SANITARY  
PLUMBING

Don't figure with me for that particular plumbing job on your new home if you want cheap material and unscientific workmanship. I use nothing but the best of material in all my business and do only expert mechanical work.

MY PRICES ARE REASONABLE AND I  
GUARANTEE THE WORK

For thirty-five years I have followed the plumbing business and have kept abreast of the times, noting the new methods as they have come and gone. I have always endeavored to recognize real improvement, trying out such innovations first to my complete satisfaction. Such development covered the Gas and Heating Work, as well as better methods of Plumbing.

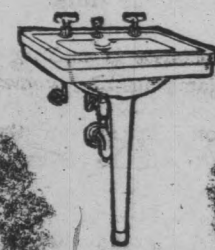

I have always had such confidence in my efforts that I have been glad to refer the results accomplished for others to those desiring my services.

I always carry a complete stock of all kinds of plumbing material and am fully equipped to handle the biggest or smallest job in an expeditious manner.

If I have not served you in the past may I have the pleasure of a trial to substantiate my claims as

AN EXPERIENCED PLUMBER

Find me at 412 WEST CALIFORNIA AVENUE, or  
reach me by Phone at GLENDALE 252

### Saves housework and lasts a lifetime

The overflow cleansing device and the elimination of metal work from the sink—both exclusive Maddock features—greatly reduce the work of keeping this lavatory clean and sanitary.

And, being made entirely of snow white, easily cleaned, almost unbreakable vitreous china, this fixture gives a life-long service without the repairs that inferior equipment requires.

An estimate, which we will gladly prepare, will show that such equipment is really not as costly as you may think. Come in and let us make this estimate for you.

**THOUGHT FOR TODAY**—Matrimony settles down to normalcy when the bride discovers that few of her hand-embroidered things are suitable for wear in the kitchen.

## HOT WEATHER AND WORK

Progressive and successful employers are learning that it is a good thing for their employees to have sufficient time at the end of the day for a play spell.

It is more and more recognized that the worth-while employee is entitled to some right sort of amusement, something affording out-of-doors exercise and plenty of fresh air, making them more fit for their work; intensive, and more pep generally being shown as the result of a "work-and-play" combination.

The languid employee, the one who yawns and complains about the heat and spends more time thinking about his discomfort than he does about his work, is not a profitable employee.

It must be expected that some discomfort is to be experienced in the round of daily duties, especially in hot weather.

But all summers are alike in this respect, so why complain about it?

Every working person has disagreeable things to do according to his job.

The one who is looking for a soft snap is not much good anyway.

Expect obstacles and unpleasant things—and have the spirit to overcome them and enjoy it—or you will never ride out of the circle of common workers.

Every employer should try to make conditions as comfortable as possible.

## STRETCHING THE DOLLAR

Not in decades has there been a time when judicious shopping means so much in dollars and cents to the ultimate consumer. The merchants are well aware of the fact that trade does not hammer at their front doors as during the war period. They must go out and get it. And to do this they are offering many special bargains. The buyer, on the other hand, is just as keen to buy as sparingly as possible. In many instances it is simply a case of not having the money. The result is that the buyer who wants to make his money go as far as possible can stretch his dollars very profitably by keeping a wary eye for bargains. Some folks scoff at the idea of the cost of living coming down 20 to 30 per cent and in some cases 40 per cent. To the man or woman who buys indiscriminately, the cost of living has not come down to any appreciable extent. But the thrifty buyer, the purchaser who is not too proud to take advantage of bargains, will find very hopeful reductions in many lines of merchandise.

If we stop the sale of pistols it will be hard on the army; but it will be a great boon for husbands.

Congress has a pet alligator—but he isn't the only individual about the premises that has a snap.

If the cop has a yellow streak, the man he arrests will have black and blue ones.

Man's inhumanity to man makes countless thousands years for ringside seats.

## STUDIO NEWS AND GOSSIP

Antonio Moreno's next release will be "The Secret of the Hills."

Betty Ross Clarke is making good as Earle Williams' leading woman.

Larry Semon's latest fun thriller "The Bellhop," will be released in September.

Jean Paige, Vitagraph star, is preparing to film "The Prodigal Judge," a story of the Tennessee mountains.

Julian Eltinge, stage and screen star, now knows what it means to have an appendix removed.

Alice Joyce will soon be seen in a Vitagraph picture which will be billed as "The Inner Chamber."

Tom Moore and his wife, who are professionally known as Rene Adoree, are arranging to entertain Dr. Stork.

John Bowers, former Goldwyn leading man, will play opposite Alice Lake the Metro star, in "The Golden Gift."

Mae Murray is completing her first picture, "Peacock Alley," for the Tiffany Productions. Monte Blue is in the cast.

DeWitt Jennings, Salt Lake actor, will have the detective role in Metro's "Lady Fingers," starring Bett Lyle.

William P. Carleton is playing opposite Clara Kimball Young in her latest picture, "What No Man Knows."

Marguerite de la Motte, having completed her work with Doug Fairbanks in "The Three Musketeers," is preparing to appear in a Goldwyn picture.

Raymond McKee, well-known as Shirley Mason's leading man in many

Fox pictures, played the leading juvenile role in Hobart Bosworth's recently completed picture, "Renunciation."

Gaston Glass and Grace Darmond head the cast in the new John M. Stahl production, "The Song of Life."

Louise Fazenda, Ben Alexander and "Teddy" have been signed to appear in a vaudeville sketch on the Orpheum circuit.

Constance Talmadge is making a "Cleopatra" picture, and intends to demonstrate her abilities as a vamp from the original Vampirella.

Carmel Myers has quit Universal and is now with Vitagraph. Her first picture will be "Breaking Through," and will be in 15 two-reel episodes.

Priscilla Bonner has an important role in "The Son of Wallingford," soon to be released under the Vitagraph brand. Edith Johnson is the leading woman.

Charlie Chaplin's latest, "The Idle Class," recently was given its world premiere in a Southern California town. Those who saw it haven't stopped laughing yet.

Colleen Moore and Pat O'Malley, who, with other Morosco players, have been filming scenes at Natchez, Miss., for "Slippy McGee," have returned to Los Angeles.

Kissing her on the hands shows a more tender affection. Also a more tender regard for her make-up.

Mix pastry with a knife and handle it as little as possible.

## WOMAN'S COZY CORNER

By JOSEPHINE FRANCE

### To Whiten Clothes

To whiten clothes that have become yellow wash in usual way, soak over night in clear water into which a teaspoon of cream of tartar to one quart of water is used.

Have any of you tried putting oranges and lemons in boiling water before peeling? Try it and see how easily they peel.

### RICE AND CHICKEN CROQUETTES

Remove all the choice bits of meat from the bones and cut them in small pieces. Any quantity not exceeding a cupful may be used. For more chicken or turkey, more rice will be needed. Cover the bones with cold water and heat slowly to the boiling point. After simmering an hour, add one or two outside stalks of celery, an onion cut in slices, a small portion of carrot, also sliced, and let cook a half an hour longer. Drain off the liquid. Heat three-fourths of a cup of rice to the boiling point in a quantity of cold water. After boiling two minutes, drain, rinse in cold water and set to cook in three cups of broth. When the rice is tender, cook one-fourth of a cup of flour, half a teaspoon each of salt and paprika in one-half cup of butter. Add one cup of the broth taken from the rice if it is not absorbed, and stir until boiling, then stir in the chicken and the rice and any additional seasonings needed. Let stand until cooled a little, then shape in cylinders. Roll in soft bread-crumbs, beaten egg diluted with milk or water and again in crumbs, and fry in deep fat. Serve with a sauce made of the chicken broth and cream of tomato puree, half and half.

### APPLE-CARROT SALAD

Have a basin of weak salt water and as you peel apples and carrots drop them in it, while you are working with them, it keeps them from turning dark. Peel about four nice apples, three or four nice brittle carrots and dice them both very fine, then cut in small pieces three oranges and one-half cup walnuts chopped fine. Mix well with mayonnaise and serve on lettuce leaves. This is very good.

### BRAN BREAD

Mix one cup of bran with one cup white flour in which you have sifted one-half teaspoon cream of tartar, one-fourth teaspoon soda, one-half teaspoon salt, one teaspoon sugar. Make a well in center of dry ingredients drop in one unbeaten egg, two tablespoons milk, two tablespoons melted butter. Mix thoroughly and bake in slow oven.

### BANANA PIE

Take one cupful of sifted banana pulp, one-half cupful of sugar, one cracker, powdered fine, one-half cupful of milk, grated rind and juice of half a lemon, one-half teaspoon of salt, one-third teaspoon of cinnamon, one egg and one-third of a cupful of cream. Mix all together and bake in a pastry-lined pie plate.

It is told of a learned professor, who was better at Greek than golf, that after a discouraging round on the links, he turned to his caddy for advice as to improving his play.

"Ye see, sir," said the caddy, "It's easy to teach laddies Latin and Greek, but it needs a head for golf."

## GRAVE AND GAY

He (at the stage door): Come, my baby doll, let us stroll over to the summer garden and have supper. She: Call a taxi. It's bad enough to be called a baby doll; but I'm certainly not one of those mechanical walking dolls.

Mr. W. Reid Dick, the famous sculptor, tell an amusing story of a Cockney couple on a visit to the Royal Academy. One picture in particular attracted their attention, and they gazed at it long and earnestly. Its title in the catalogue was "Hawking in the Olden Days." "Awkins in the olden days," murmured the puzzled 'Enry, frowning his brows. "Well, they didn't 'arf do it. My word, 'orse-back an' all." "Rather," agreed 'Arriet. "But wot are they 'awking?" "Blessed if I know," responded the still helpless 'Enry, "unless they're trying to sell their parrots."

George Gould was asked what he really thought of commercial conditions in Germany and how soon the German mark would be worth face value again. "I can't exactly say," he admitted, "for in a great many ways the German situation today reminds me of an encounter between a mistress and a maid. 'Mary,' cried the mistress, 'why didn't you wash that window?' 'Sure, and I did wash it on the inside, ma'am, so as we could look out of it, but I thought I wouldn't clean the outside so those curious children next door couldn't look in.' The Mother: Shame on you, Doris, for being so selfish! You know I'll be careful of your frock; besides don't forget the times you've worn my silk stockings."

In a street-car the other day a man and his wife saw a cockroach on the floor. "I never see one of those things," said the man, "without wondering where it came from." "And I never see one," said the wife, "without wondering where it is going."

### Natural Padding

"The fat comedian in this picture seems to amuse you greatly." "That's because I have a sympathetic disposition," said the angular patron.

"I don't understand." "I know it can't hurt him much to fall the way he does, but I couldn't bear to see a thin person doing it."

### Geese is a Bird

Johnny, in the fourth grade of a large city's public school, may never make a Shakespeare or a Milton, but Johnny can write a good composition on "geese." At least the judges in a composition-writing contest think so, and awarded him the first prize for his effort on the subject. Here is the effusion of Johnny, which took the prize:

"Geese is a heavy-set bird with a head on one side and a tail on the other. His feet is set so far back on his running-gear that they nearly missed his body. Some geese is ganders and has a curl on his tail. Ganders don't lay or set. They just eat, loaf and go swimming. If I had to be a geese I would rather be a gander. Geese do not give milk, but give eggs; but for me, give me liberty or give me death."

### Handing Room Only

He: You're as good as a play! She: Be careful, or I'll hand you a box!

An Atlanta husband, having offended, came home the evening of the quarrel with a parcel under his arm. "Darling," he said to his wife, "look here. I've got something here for the person I love best in the world." She came forward with a shrug. "Humph! What is it?" she asked. "A box of cigars."

A notorious gossip one day went to Dean W. D. Wilson, burning with indignation. "Oh doctor, have you heard the disgraceful news? The young people of your church are going to have a dance, they say. How shocking! What do you think about it?" To which the saintly scholar responded sweetly, "Madam, I had rather have them shake their legs than their tongues."

"Who discovered America?" asked the teacher. Jack looked panic-stricken, and made no reply. Please ask me something else, miss," he said after a while. "Why should I do that?" asked the teacher. "Well," said Jack, "the fellows were talking about it yesterday. Pat said an Irishman discovered it. David said it was a Welshman, and Andrew said a Scot discovered it. And if you'd seen what happened to them you wouldn't ask a little fellow like me."

### A Willing Husband

"Gladys Jane has a perfectly lovely husband."

"So?"

"Yes; he's willing for her to have anything she can get on credit."

### Tact in Selling

Madam, the chapeauist, had bought six hats. Trying one of them on the first customer, who was thin, she said:

"It makes you look plump." And the first hat was sold.

To the second customer, who was fat, she said:

"It makes you look thin!" And the second hat was sold.

To the third customer, who was florid, she said:

"It makes you look pale!" And the third hat was sold.

To the fourth customer, who was pale, she said:

"It gives you such a healthy glow!" And the fourth hat was sold.

To the fifth customer, who was tall, she said:

"It decreases your height." And the fifth hat was sold.

To the sixth customer, who was short, she said:

"It adds considerably to your height." And the sixth hat was sold.

And all of the six hats were alike—Town Topics.

### Hard to Shop

He—And what is your society for? She—For the prevention of gambling among women.

He—But that's impossible. She—Certainly it's not impossible to step gambling among women.

He—Oh gambling! I thought you said gambling!

New floorwalker (after being called down): You know I'm very new on the job.

Superintendent: But please remember that our executive and advertising offices are in the rear of the store; and when a man wants to know where the publicity department is,

### It Is Yellow

Big Brother—"Jack, if you were talking of a yoke of oxen, would you say 'the oxen is white' or 'are white'?"

Jack—"Are white."

Big Brother—"If you were speaking of the yolk of an egg would you say 'is white' or 'are white'?"

Jack (unthinkingly)—"Is white."

Big Brother—"It is not. It's yellow."

(Then he had to dodge a load from Jack's sling shot.)

Rice With Bacon and Tomatoes

Melt two tablespoons bacon fat, or fry three or four slices of bacon in a saucepan. Add one slice of onion and one cup of unglazed rice, and cook slowly until fat is absorbed. Add one and one-half cups of strained tomato pulp, two teaspoons salt, a dash of pepper and two cups of water or stock. Cook slowly until the rice is tender. If desired, add one-half cup of grated Parmesan cheese.

### Rice au Gratin

Cook one cup of unglazed rice until tender. Add two cups scalded milk, two finely chopped pimientos, one cup grated cheese, one teaspoon salt and a dash of pepper and pour into a buttered baking dish. Bake until brown in a rather quick oven.

### Left-Over Rice

Cold boiled rice left from a meal, can be utilized by using a beaten egg and milk, then formed into cakes and fried. Very nice for tea.

Coal burns out faster on a frosty night than any other.

## CITY WILL USE VITRIFIED PIPE

Vitrified pipe will be the style used in the construction of the city sewer, it was announced by the City Council last night, reporting after a week's consideration of three styles submitted on bids and propositions for the supply required for the initial unit in the business section. The price of the style adopted was conceded by the Council to be a little higher than other styles submitted, including concrete pipe. The vitrified pipe won out on durability.

Resolutions of intention to construct will be called for at the next meeting of the Council, specifying the material to be laid from Brand boulevard and Broadway, extending from Wilson to Colorado on Brand, and from Maryland to Orange on Broadway, and the institution of large cesspools in the alleys close to the business district for the sewage basins. Ultimately the basins will be connected with a septic tank on city property at the intersection of Glendale avenue and Verdugo road. The work is to start in two months and be finished four months hence.

### INSPECT GOAT MILK

Goat milk sold in Glendale, hereafter, will have to be inspected for bacterio, it was decided last night at the meeting of the City Council.

Considerable goat milk is being sold in Glendale. Some of it is good and some of it is not so good. None of it has been inspected.

City Manager Watson decided when City Health Officer Eckles reported unfavorably on samples, that the milk should be placed under cow regulations, and the council last night adopted the suggestion, ordering that Ordinance No. 203 be applied.

### Personals

Mr. and Mrs. C. C. Storer, of 339 West Colorado street, are planning to leave soon for a short outing at Robert's Camp.

Mr. W. R. Reams of 1843 Gardena avenue, underwent an operation at the Glendale Hospital and Sanitarium this morning.

Mr. and Mrs. F. S. Cord, of 319 Patterson avenue, motored to Arcadia yesterday, bringing home with them, Mrs. Harry Baugleman, who will be their guest over the week end.

Miss Helen Wallace of 141 South Cedar street is spending a vacation with a party of friends at Pine Crest, in the San Bernardino mountains. She is having a very good time and writes the weather there is simply perfect.

Mrs. M. A. Reed and daughter, Miss May Reed, of Montrose, Colo., who have been spending the past six months in Glendale and Manhattan Beach, left for home Tuesday, going by way of San Francisco. The last of their stay here was spent as guests of Mrs. Adelaide Imbler and her sister, Miss Hickman, of West Park avenue.

Eli Hall and son Charles, of Chicago, who have been touring Southern California for the past two months, left for their home today, accompanied by Mrs. Shultz of Peoria, Ill., who had been visiting friends. The party has been in Southern California selecting a place to locate permanently, and expressed great liking for Glendale, and may return here.

Mrs. A. J. Esterly, of Salem street, who became quite ill of summer influenza about ten days ago and was confined to her bed for nearly a week, is now able to be up and about the house, though still weak. Her sister-in-law, Miss Helen Esterly, was with her part of the time, but returned to the home of her parents, on Seventy-first street, Los Angeles, last Saturday. W. W. Esterly drove out to take his sister home. He has never recovered from war injuries sustained from fragments of shrapnel in his lungs, but is now at home after a lengthy stay at Arrowhead hospital, and feels and looks considerably better.

### SIKHS STRONG NATION

The Sikhs, originally a religious sect of India, whose teachings resemble those of Judaism and Christianity more closely than any other religion in the world, have grown into a nation three million strong. At first a peaceful people, they grew to be militaristic, due largely to the persecutions of the Mohammedans. They have proved a remarkable aid to Great Britain and are now so dependable that they are found everywhere in the East as policemen, overseers, and workmen.

Ashkelon, the ancient city often mentioned in the Bible, is now being explored, one recovered relic being the foot, a yard long, of a gigantic statue.

Daily Press Classified Ads will solve most problems at small cost.

## HARDING VISITS SICK SOLDIERS

(By International News Service)

LANCASTER, N. H., Aug. 5.—President Harding took to the road bright and early this morning for a long motor trip through the mountains. Dixville Notch is the President's objective. The ever-present golf sticks are in the President's car, and the President may try his skill on the Dixville course, said to be the most difficult in the White mountains.

Late this afternoon, President Harding will visit the hospital at Gorham, to pay his respects to the soldiers of the great war. Mrs. Harding, who is rapidly recovering from indisposition from which she suffered in Washing-

ton last week, wants to meet the soldier boys and probably will join the President at Gorham.

### MISS SHARPE ENDS SUMMER SESSION

The summer school, which has been conducted by Miss Gladys Sharpe at the Intermediate building for the past six weeks, ends today. Four pupils will be promoted from the grade they were last in at the Intermediate school. There were 18 enrolled for the summer work.

### REV. RIDER ON VACATION

Rev. O. P. Rider, pastor of the Tropical Presbyterian church, is taking a vacation, and his pulpit will be occupied Sunday morning by Rev. H. Sanderson, of the Bible Institute, Los Angeles. There will be no evening services.

## NEALE & GREGG CATER TO SPORTS

A sporting department has been organized in the Neale & Gregg Hardware Company store, 107 North Brand boulevard, and is now ready for business under the management of G. Wangerheim, who comes from Los Angeles with long experience in the sporting goods line.

Plans are on foot by Mr. Wangerheim to organize a local fishing club. He has stocked his department with a complete line of fishing materials and is prepared to give advice and information relative to angling in Southern California.

Besides handling fishing goods the store has included a stock of hunting

goods and athletic materials. Reaca and Spaulding baseball equipment will be sold.

### MRS. HELEN SADLER TO REMAIN HERE

Mrs. Helen Sadler, who recently returned from Oakland, where she spent the winter with her daughter, Mrs. D. Arthur Edwards, is now the guest of her son and daughter-in-law, Mr. and Mrs. Edwin Sadler. In a few weeks they will leave for Arizona, where Mr. Sadler will teach during the coming year. After their departure Mrs. H. Sadler will decide upon a permanent location, somewhere in this city, where she has a host of friends, many of whom she acquired during her fine service in Red Cross work during the war.

## SUNNY SUNLAND HAS JOLLY TIME

The twenty-fifth anniversary of Sunland's acquisition of a municipal park was celebrated there today with a program and picnic. A number of Glendale people, former residents of Sunland, attended the festivities, which began at 8 o'clock.

In addition to speakers there were sports and a picnic luncheon under the live oak trees that shade the park. A flag raising ceremony was one of the features of the program.

The municipal park, now owned by Sunland, was acquired after a long legal controversy with one of the large Monte Vista land holding companies 25 years ago.

## COTTON CULTURE ON WEST COAST DESCRIBED

(By International News Service)  
WASHINGTON, Aug. 5.—Egyptian long-staple cotton is being grown in the Colorado, or Grande River valleys of California and Arizona.

It is a new industry in this region that has been made wonderfully fertile through irrigation. The protection of this industry against destructive competition from long-staple cotton imports from the Nile River valleys was sought by Californians. This was the origin of the unsuccessful fight waged in the House for inclusion in the Fordney Tariff bill of a 15 per cent duty on cotton having a staple of 1 1/4 inches in length, or more.

Credit is given former Secretary of Agriculture James Wilson, of Iowa, by Representative Julius Kahn, of California, for starting the cotton industry along the Grande River, industry along the Grande River, in California and Arizona, and making possible the development there of hundreds of thousands of acres of land into prosperous cotton fields.

### GRAND RIVER VALLEY

"In 1909 Secretary Wilson sent for me, saying he had good news," Kahn stated in explanation of the history of cotton growing in the Grande River valleys. "He told me that reports made to him by experts and scientists of the Department of Agriculture showed that the soil, climate and general conditions in the Grande River valley of California and Arizona were very similar to those in the Nile River valleys and that he intended to start an experimentation to ascertain whether long-staple or Egyptian cotton could not be grown in the Grande River valleys."

"The Secretary had \$44,000 which he said he could use for the purpose of making the experiment. In twelve years, from that small expenditure, a great cotton industry has sprung up in the Grande River valleys. Nearly 60,000 acres of lands are being planted in cotton, and the last crop brought over \$50,000,000. The Goodyear Rubber Company has a 10,000-acre cotton plantation in the California Valley and is contemplating moving there a part of its great automobile tire plant that it may be near the raw product and save in transportation costs. The long-staple cotton is used by the company in the manufacture of cords for its tires."

### LONG STAPLE IN SOUTH

There is very little long-staple cotton grown in other sections of the cotton belt of the United States, although in recent years there has been conducted a campaign of education among the Southern cotton growers to induce them to abandon their short-staple product and turn to cultivation of the long-staple variety. Experts have held that this was possible through improvement of soil and selection of seed.

The discoverers of America found the short-staple cotton plant growing wild in the South. While the cotton planters since that time have extended the cotton-growing area and have adopted many improved methods of handling the crop, it is stated that little attention has been given the subject of improvement of the staple. Attempts made by specialists to grow the long-staple Egyptian and Sea Island cotton on the Atlantic Coast have not met with great success but a destructive insect was more responsible for the failures than climatic conditions or unfriendly soil.

## LIFE'S REALITIES AT THE GLENDALE

In making "While the Devil Laughs," starring Louise Lovely, which comes to the Glendale theatre today, Director George W. Hill declares that his purpose in writing and directing the story was to show the realities of life as they are found in the slums—where, he says, one finds people quite as human and lovable as in the quarters of the rich.

Director Hill's preparation for making such pictures has been his actual contact with the sort of life he aims to portray. He declares that it has always been a greater pleasure to him to stroll observantly through the slums, watching real life, than to walk in the haunts of the wealthy. He has observed life in the slums of San Francisco, New York, London, Paris and Rome, and has invariably reached the same conclusion—that the people living in poverty find more real happiness in life and live with less shame than the millionaire.

Accordingly, it is his idea to make pictures showing this very thing; to give a sympathetic picture of the real sorrow and joy of the very human hearts of those who live, love, work, hate and aspire in the slums of a big city.

In "While the Devil Laughs" Mr.

## "Martha Malicia Goes Shopping"

### The Car of Many Features!

HAVE YOU SEEN the new Sheridan at the CLUB GARAGE, 107 E. Colorado street? Beautifully upholstered in the finest grade of hand-buffed genuine leather that insures comfort and durability—you can take the longest trips without the slightest undue fatigue! The Sheridan is an unusually trim and graceful car! Besides being a most attractive and comfortable car, its ease of handling and simplicity of control are two very important factors not to be overlooked. The Sheridan is truly "the car complete" with every convenience imaginable even to a jeweled, electric self-winding clock and the handiest little tonneau lamp that can be pulled out to form a trouble lamp on a twelve-foot cord! The Sheridan is a car that commands itself to everyone. Stop in at the Club Garage and ask to see the new Sheridan, for they are the agents in Glendale.

To keep a cake fresh for a long time, when taking from the oven when still hot, pack cake in brown sugar—it will keep fresh for two months! Or, take a hot cake, ice it lightly, then set in cake box with a glass filled with cold water to give moisture.

### The Coffee King!

ONE MIGHT LIVE A LIFETIME and never again have the opportunity of tasting such coffee as can be purchased from BOOTH'S at 318 E. Broadway! It is, without question, the most wonderful coffee I have ever tasted—and the beauty of it is that when your coffee is bought at Booth's you may be absolutely certain that it is pure and fresh, only the coffee which he blends himself—for then he knows he is giving the best for the money. And no one knows better than Mr. Booth how to blend coffee for he has been for a number of years a Tea and Coffee Taster—a profession that may only be acquired through experience. If you prefer tea, you'll find Booth's special blend tea quite the most satisfying and refreshing beverage you've ever tasted!

### No Need to Worry Further

WELL FINISHED and always neat looking, hardwood floors add a note of distinction to the modern home! The GLENDALE HARDWOOD FLOORING COMPANY, of 304 E. Broadway will lay a good quality hardwood flooring very reasonably, for you. And, if the Glendale Hardwood Flooring Co. is engaged to do the work, you needn't give it another thought—for it will be done both quickly and well!

When you wish a rich, dark meat color for soup, use caramel, which is sugar browned in a frying pan until a golden brown and then dissolved in a little water.

It Should be Your First Consideration WHEN FURNISHING YOUR HOME think first of the gas range—for that is most important! Of course you'll want to buy one as reasonably as possible, in order to save the money to buy better furniture for the rest of the house—and that's why I'm recommending the GLENDALE FURNITURE STORE! You see they have a double store at 606-608 E. Broadway where they buy and sell used furniture as well as the new. They have an excellent line of second-hand gas ranges, in wonderful condition, many of them just like new—and almost all of the best known makes are represented. The Glendale Furniture Store will attend to the connecting of the range, too!

### Depicting the Wonders of Nature!

WORDS FAIL ME when it comes to describing the exquisite views of the San Bernardino Mountains which Mr. Spears of the PHOTO SHOP at 219 E. Broadway photographed on the Rim of the World! Each scene is a marvelous work of art—for they have been tinted in their natural hues—and such wonderful colorings as one might only find in rare moments! Drop in and see them for it is well worth your time! You know, too, of course that you may take your old mirror frames down to the PHOTO SHOP and have them made into the loveliest of Polychrome frames—in the newest shapes and designs—and so much more reasonably than you could buy them ready made. And then, too, the workmanship is much finer than you'll find on most mirror frames!

### Saving 10c a Bar

DON'T TAKE ANY CHANCES on letting that delicious jam spoil! At the GLENDALE PHARMACY, 638 E. Broadway you can buy the genuine Parawax, which is known by its excellent quality—for only 15c per pound! No, there is no limited amount to one purchaser—as is the rule with such extraordinary values! If you're contemplating preserving any vegetables or fruit for the winter, you should certainly lay in a good supply of Parawax while you can save 10c on every bar! At the Glendale Pharmacy, don't forget!

WOULDN'T YOU LOVE a dear little five-room bungalow, with all of the modern built-in features, hardwood floors and a garage? VANDENHOFF of 205 N. Brand blvd. has just such a place—with a large lot just covered with bearing fruit trees and the loveliest flowers and shrubs! All for only \$5250—only about \$2000 down and the balance in small monthly payments!

Tea and coffee left uncovered soon lose their strength.

### A Decided Advantage

FOR THE LARGE FAMILY I have found just the ideal electric washing machine at WASHER WILSON'S of 140 S. Brand blvd. It will do an entire family washing in just about half the usual time! You see, the clothes may be started in one side of the tub while you prepare the remainder. By the time the second tub is started the first is ready to wring out and by means of an adjustable and reversible swinging wringer placed between the two at a convenient angle, those pieces may be put through the wringer and hung out on the line! Thus, alternating between the two tubs—first wringing and hanging out one then the other—the whole process

may be very quickly gone through with—and with but little effort. The machine is mounted on a sturdy steel frame built expressly to support two tubs—and below the motor is entirely enclosed! It doesn't cost any more to operate the double than the single tub machine—and the initial cost is comparatively much lower.

You can buy the machine complete from Washer Wilson for only \$115.00—and you know, I guess, what you'd have to pay for just a single tub washer! Another advantage of the larger machine is that, because the capacity of each tub is as great as any other, if you have only a few pieces to do, it is not necessary to run both tubs—you may use either one of them!

### The Invisible Artist!

AT THE BARNES SHUCK MUSIC CO., of 211 N. Brand blvd. you may hear that marvelous reproducing piano—the Ampico! The Ampico is the most ideal musical instrument, for it combines the desirable attributes of performer, medium and interpreter! Through this wonderful instrument people in all parts of the world may realize the joy and pleasure of hearing the masters' interpretations of the ideal music in their own homes! The Ampico reproduces perfectly the most minute details of an artist's performance—and in fact the only difference between reproduction and the living pianist is that in one case the artist is actually present and may be seen, and in the other he is invisible—the performances, however, are identical! At your bidding the great musicians of the concert stage will render your favorite selections! Perhaps it will be "Carry Me Back to Old Virginia," "The Lost Chord" or "Mother Macchree," or such lovely dance music as the "Love Bird," or "Tired of Me." No matter what your choice may be you may have them all upon a moment's notice! The Barnes Shuck Music Co. are the agents for the Ampico in the Knabe Piano—and when you have a Knabe Ampico you have an instrument which stands for QUALITY. For the workmanship that makes the Knabe the World's Best Piano is not an acquisition of one generation, but a pedigree of skill that has run through more than 80 years!

### A Delight

THE BRAND CLEANERS of 217 S. Brand blvd. make a specialty of ladies' work—and I know you'll just be delighted with their treatment of the finest fabrics.

After boiling salt beef, leave two or three carrots in the liquid until cold—the carrots absorb the salt and the liquid and the liquid can be used for soup.

MARTHA MALICIA

THE LOVELIEST of summer hats in all the most desirable shades are being shown at the GILBERT MILLINERY, 123 N. Brand blvd., at a special price reduction! Yes, summer models for only \$5.00—and you'll simply love them! There are also some advanced fall models straight from New York being shown in an attractive combination felt and velvet—the very latest—and they are also being offered at \$5.00! There are just any number of stunning new models at the GILBERT MILLINERY.

In cooking vegetables, cover those that grow under the ground, as onions etc.; leave uncovered all vegetables that grow above ground.

Peas too hard for serving plain may be cooked until tender, pressed through a sieve and pulp used for soup.

### Baked Honey Custard

5 eggs; 1-8 teaspoon powdered cinnamon; 4 cups scalded milk; 1/4 teaspoon salt.

Beat the eggs sufficiently to unite the yolks and whites, but not enough to make them foamy. Add the other ingredients and bake in cups or in a large pan in a moderate oven. The baking dishes should be set in water.

### The Housewife in Distress

DELIGHTFULLY ORIENTAL are the dainty little Japanese cups and saucers of fine china which NEALE & GREGG have just received from the Orient! Imported just especially for the NEALE & GREGG HARDWARE COMPANY, they were, too! You may have the choice of the plain or decorated pieces at a special price reduction on Saturday and Monday, only! Although regularly they sell for 25c you may buy one of these attractive cups and saucers for only 15c—but, just for the two days! They make an ideal breakfast set and you should certainly take advantage of this special offer at once.

Did you know that Neale & Gregg maintain an excellent repair department just for the housewife in distress? Yes, truly—if you drop your best china plate just call their store—Glendale 181—and they'll send some one out immediately to mend it for you. Or, of course, if you prefer you may take it to the store at 107 North Brand boulevard, but, whichever you do, you may be sure that it will be perfectly mended! In Neale & Gregg's repair department you may also have your leaky pots and pans or boilers satisfactorily mended. In fact, you needn't worry at all, for no matter what goes wrong in the house, they can fix it—even to mending and hanging curtain rods!

Save the excess liquor from your pickled peaches—it may be used for mince pies, sauces, etc.

A plain lemon jelly left from dessert may be cut up into cubes and mixed with fresh vegetables for a salad.

Honey may be used to mix with nuts for sandwiches; also used as filling for tiny baking powder biscuits.

## WHAT YOUR NEIGHBORS ARE DOING

Mrs. Grace Taylor and son, Leighton of 332 Burchett street go to Little Bear Monday for a week's outing.

Mr. and Mrs. John B. Cole of West Burchett street, and their two children, visited relatives in Long Beach and that vicinity recently.

Mrs. M. Morehouse of 1000 East Lomita avenue has as her luncheon guests yesterday, Mrs. Radford, Mrs. Jane and Miss Alma Stolle, of Los Angeles.

Mr. and Mrs. C. M. Cram are now settled in their new home at 357 West California avenue. They made a number of improvements to the house before moving in.

Miss Helen Libby and Miss Elsie Thompson, who were guests for a few days of Mr. and Mrs. S. Houdyshel, of 308 North Orange street, have returned to their home in Bakersfield.

Mr. and Mrs. W. P. Murphy, who reside in the Davenport building at Cypress and Brand, welcomed a son to their home on Wednesday. Babe and mother doing nicely.

Miss Carol Duncan and Miss Ida Myers of 1607 South San Fernando road returned this morning from a three week's vacation trip, ten days of which was spent in the Yosemite.

Mrs. Wm. Weger, of 610 East Orange Grove avenue, returned from Santa Monica last evening, where she has been camping on the beach for the last couple of weeks.

Misses Bernice and Maude Morehouse of 1000 East Lomita avenue, attended a meeting of the Young People's Society of the Nazarene Church yesterday at Westlake Park.

Mrs. Dwight Stephenson, of 327 West Cypress street, entertained Wednesday with an informal luncheon for Miss Neely Moreland, of Chicago, who has been her guest for a few days this

Hill is having his first opportunity to execute his big idea.

A two-part comedy, called "He Loves Her Still," is included in today's bill. The lead is played by Billy West, the character comedian, who shows to advantage in just such pictures as this. A reel of Aesop's Fables tops off the performance.

week. The Stephensons will be guests at a dinner party Saturday night given by Mr. and Mrs. Clarence Edwards, of Hollywood, for friends in Los Angeles and Hollywood.

George Kelsey of 430 West Burchett street has been at Long Beach this week at the bedside of his father, who suffered a stroke of paralysis Monday. He is still in a very serious condition.

Mrs. H. H. Plasterer of 1124 East California, has gone to Huntington Beach for a week's outing. Miss Alberta Jean Plasterer of the same address leaves Monday for a week at Hermosa Beach.

Mr. and Mrs. Izuki, Japanese, residing at 630 West Elk street, have a new baby boy at their home, who has the name of Harry. This is their fourth child, all having American names.

Mrs. Josephine Cowgill, formerly from Wyoming but more recently from Seattle, arrived in Glendale Wednesday and is the guest of her friend, Mrs. J. J. Hickman, of West Park avenue.

Mrs. C. W. Fraser, wife of a Santa Fe conductor, was the guest of Mr. and Mrs. Harry Sibley, 718 South Brand boulevard, this week. She returned to her home in San Bernardino yesterday.

Mrs. Minette Sherman, of 316 Ethel street, who is taking a vacation, with her daughter Margery attended the matinee at the Morocco theater Wednesday and witnessed "The Tailor-Made Man."

Mr. and Mrs. Frank Spoug, of 114 East Garfield had as their guests Wednesday, Mr. and Mrs. Floyd Cook of Long Beach. The two families knew each other when they lived in Syracuse, Neb.

J. E. Sargent of 509 North Kenwood street, who recently sold his home there to Mrs. Marigold, who came here from Milwaukee, has moved to 448 West California, where he will reside until he finds a suitable location.

A theater party composed of Mr. and Mrs. C. F. Parker and daughter,

Mrs. H. C. Bagby; Mrs. Lillian Dow and her daughter, Mrs. Robert Philip, who is here from Chicago for the summer, attended the Pilgrimage play in Hollywood Tuesday evening. It was Santa Barbara night and a large delegation was present from that city and from San Diego.

Mrs. H. A. Hill of Colorado Springs, Colo., who is visiting her mother, Mrs. Jennie L. Darling, of 108 South Everett street, attended a meeting of the White Shrine last evening, at the Masonic Temple, Figueroa and Pico streets, Los Angeles.

Mrs. J. I. Wernette and son, Eugene, of 1330 North Louise street, who are at Big Bear lake with Mr. and Mrs. Howard Walker, write that they are having a very nice time. Mr. Wernette is going up on Saturday to bring them home.

Hubert Toll, son of Mr. and Mrs. C. H. Toll, of Keneth road, arrived at home from Boston on Monday, and the Toll family is leaving Saturday for an auto tour of the north. They plan to spend four or five weeks in the Columbia river country.

Miss Vera McPherson, who has been connected with the C. H. Thompson Realty Company, 131 North Brand boulevard, will leave tomorrow for a two week's vacation at Big Bear Lake. Miss McPherson will be accompanied by a number of Glendale friends.

Dr. S. L. Brown of Pullman, Wash., has just arrived to be the guest for a few days of his brother, Dr. H. V. Brown of North Central avenue. He is an instructor in the State University of Washington and is making a tour of the colleges to get new ideas.

Mrs. W. I. Wright, who arrived a short time ago from Butte, Mont., to visit her sister-in-law, Mrs. Eva Hutton of 326 East Colorado avenue, has been quite sick since her arrival, but is improving and hopes to soon be able to take short pleasure trips.

Mrs. W. A. Maxwell of 326 West Wilson avenue, had the pleasure of a brief visit from her old friend Mrs. Hannah Lowe, of Canton, Ohio, this week. Mrs. Lowe has been the guest of a daughter in Los Angeles for several weeks. She is very much delighted

with Southern California, and declares she will return at some later date to make a permanent home here and bring all her friends with her.

Mrs. E. L. Balcom and son Everett, of 211 West Magnolia, returned Wednesday from San Diego where they had been the last fortnight, visiting Mrs. Balcom's uncle and aunt, Mr. and Mrs. Moise. A cousin, Miss Carrie Morse, returned with them for a short visit.

Mrs. Roy Kent, of 522 North Central avenue, has had the pleasure of entertaining this week, her sister, Mrs. H. C. Stallard, and son and daughter, Lawrence and Margery. They left for their home in Los Angeles yesterday.

Rev. Clifford A. Cole, of this city, has been requested to represent his church at the National Christian convention at Winona Lake, Ind., and will leave Glendale about the middle of the month. He will be absent about three weeks.

Mrs. S. E. Grant, of 1209 East Lexington drive, who left about two months ago for the east, is now en route for home, after having visited friends and relatives in South Dakota, Oklahoma and Texas. She is expected to reach Glendale in a week or ten days.

W. P. Clover of 349 Patterson street, teller at the Glendale avenue Branch of the Title Guarantee and Trust company, is enjoying a two weeks' vacation. He is spending the time motoring through Southern California. He will return to work Monday morning.

Homer Wickard, of Murietta, has been the guest of his sister, Mrs. F. R. Sinclair, of 345 Sinclair avenue, this week, but is leaving today. Mrs. Zenith Sinclair entertained Mrs. Rex Robinson and daughter, Phyllis, of South Pasadena, at luncheon on Thursday.

Miss Marjorie Imler, of Palm villa, leaves Saturday for Berkeley, to resume her course in the state university as a senior. During the past week she has entertained a number of her sorority friends, the list including Miss Helen Johnson and her sister,

Leila, of Rice, Wash.; Miss Blanche Eastwood, of Oxnard; Miss Louise Wilcox, of Pasadena, and Miss Elta Rowe, of Pomona. Miss Wilcox goes to Smith College, Northampton, Mass., for the coming year.

Mr. and Mrs. Newell Vincent, daughter and son-in-law of Mr. and Mrs. E. C. Hurlbert, of 348 West Park avenue, have returned from a honeymoon in Berkeley. They declare they very much prefer Southern California to the north. They are now looking for a residence in Glendale.

Miss Sadie Houdyshel, of 308 North Orange street, who has been on a six weeks' trip to Alaska, returned to her home Thursday evening. Miss Houdyshel, who made this a pleasure trip only, visited many points of interest in the northern country, including Dawson, Yukon, Skagway, and stopped off at Seattle on the return trip.

Mr. and Mrs. William Justema, of 140 North Central avenue, have rented their house for a month and gone to their hillside cabin in Sycamore canyon. They are enjoying the change very much and their daughter and son-in-law, Mr. and Mrs. Dwight Stephenson, have been spending week-ends with them.

Mrs. G. W. Evans of 510 East Palmer avenue, is enjoying a visit from her mother, Mrs. J. W. Long, who, but recently arrived from Covington, Ky. Mrs. Long visited here about a year ago and at that time was greatly impressed with Southern California, and especially with Glendale. She is thinking seriously of locating here.

Mr. and Mrs. C. N. Williams of 128 West Maple street are having the pleasure of entertaining their daughter and son-in-law, Mr. and Mrs. Alonzo Reifenberck, of Berkeley, who arrived a few days ago. Mr. Reifenberck will also visit his parents, Mr. and Mrs. Charles Reifenberck, of Compton, and his grandmother, Mrs. Jane E. Reifenberck, who has recently established herself in a pleasant home in the Atwater tract. In about ten days he will return to his work with the Shell Oil company, a big corporation controlled by British, Dutch and American capital. His wife will remain for a longer visit.

## LABOR DEPARTMENT PLANNING TO AID ALIEN WARDS

Betterment Campaign Will Be Started and Effort Made To Instill Americanism

(By International News Service)  
WASHINGTON, Aug. 5.—Reorganization of the Bureau of Naturalization in the Department of Labor is one of the pet plans of Secretary Davis. The plan is now taking practical shape, and prospects are that a great new forward step may soon be taken to make life different and better for the alien newcomer and the country a gainer by acquiring new citizens better prepared for their new duties and privileges.

At Secretary Davis's request a bill has been introduced in Congress which will change the title of this bureau to the Bureau of Citizenship. With the change in title the bureau will take on a vastly broadened scope of activity. The old Bureau of Naturalization has always been charged with the responsibility of naturalizing foreigners, but it is Secretary Davis's plan to have the new bureau live up to its name. It will be more than a Bureau of Naturalization; it will be a Bureau of Citizenship and training for citizenship. It will train our alien arrivals by instruction in the public schools. It will provide for them guidance and protection. It will set up machinery to see to their proper distribution over the country, so as to avoid the old evils of a congestion of new foreigners in the larger cities. Many of these new comers, for instance, arrive here with long experience, which they are forced to discard for work in the cities because they have no means of reaching the farms or of ascertaining where their farming experience may be of value.

"Among its other duties the new Bureau of Citizenship will spread knowledge of our American institutions in such a way as to heighten respect and inspire loyalty, to those institutions," said Secretary Davis, in commenting on his plan. "It will begin a national campaign for bettering the physical and moral well-being of our foreign-born population. To this end the new bureau will undertake to protect the foreigner from fraud and imposition. It will provide centers of information, where persons of patriotism and character will offer guidance and advice. Where it is possible these advisers will be themselves of foreign extraction, in order to offer real sympathy and understanding and so serve to bring the still newer aliens into wholesome contact with the people of their own race. Always the burden of advice will be respect for the Federal Government."

## "THE SKY PILOT" AT PALACE GRAND

Probably because of the fact that he thoroughly knows the subject whereof he writes, Ralph Connor's story, "The Sky Pilot," which King Vidor has directed as a motion picture, is one of the real gems among current motion picture releases. It is to be shown at the Palace Grand theater today and tomorrow.

Ralph Connor, whose real name is Rev. Charles W. Gordon, and whose steady occupation is not writing books at all, but preaching the gospel in his little Canadian church, is to be congratulated upon the sincere manner in which the Catherine Curtis Productions have translated his story to the screen. Few authors can claim as interesting a film version of their work as can the Rev. Gordon.

The story deals with a young minister who is sent into the Canadian ranch belt to spread the gospel among the cowboys. His trials and tribulations, his fights, his faith, his hope, are masterfully interpreted by King Vidor through John Bowers, who plays the title role.

How the pilot, unpopular at first, wins a place for himself in the hearts of the cowboys, who surprise him on Christmas morning by leading him blindfolded down a snow-covered trail to show him the little frame church they have built without his knowledge, forms the human note of the story which is featured by several smashing dramatic scenes.

"The Goat" will be shown with "The Sky Pilot" both today and tomorrow. Here is a picture which brings the stoical Buster Keaton out in a burst of comedy. Perhaps the situations that arise are not funny to Buster, but they are certainly mirth-provoking to his audiences.

At times one suspected that reformers don't have the prize fight so much as they love the lime light.

An incurable philosopher is one who can find consolation in bragging about the heavy tax he pays.

## AMERICAN LEGION MEETING TONIGHT

The Glendale Post of the American Legion will hold its first August meeting tonight at 8 o'clock at the Legion headquarters, 610 East Broadway. A supper will mark the ceremonies of the evening and it is probable that eight new candidates will be elected into the organization. There will be a speaker present to give a brief talk on a subject of general interest.

Measures that are endorsed by the post and which will be carried before the meeting of representatives of Legion organizations of the eleventh congressional district, to be held August 11, will be discussed. The Glendale delegates are composed of last year's delegates to the state convention, and those who will attend the convention at Yosemite this year.

### Remember?

Little Margery wanted to talk over the telephone with her mother, who was visiting a friend, so her elder sister gave her the "phone number" and let her call central. A few days after this conversation, when the mother was paying another visit to the same friend, the older sister overheard Margery at the telephone. Central evidently had been asking for the number, and Margery was explaining vehemently: "Central, I want the number I had Thursday. Don't you understand? The same number."

Thirty or forty persons are employed in making a doll.

## LADIES! DARKEN YOUR GRAY HAIR

### Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

## When a Boy Knows More Than His Father

Sometimes a boy does know more than his father. Ours would have been a very different history if Abe Lincoln, age sixteen or so, had been guided by the wisdom of Thomas Lincoln, age thirty-six or so.

"Now, Abe," we can imagine him saying, "don't waste time reading them books. Reading never done me any good, and what was good enough for me's good enough for you."

Lincoln knew more than his father. It was a divine disobedience that led him to close his ears to the man who had brought him into the world, and open his heart to the vision that was to help him conquer the world.

Robert Louis Stevenson knew more than his father.

That father would have shackled him to the dry problems of engineering. He could not understand the obstinacy of the boy who refused to apply himself. That obstinacy saved a great author from misery as a mediocre engineer. That obstinacy enriched the ages.

Jesus Christ knew more than His father.

"Thy father and I have sought thee sorrowing," said His mother to Him.

And neither His mother nor His father could hear the voice that was calling Him away from them, the voice that was to find fathers and mothers and brothers and sisters for Him among all those who should do His will.

"Let no man despise thy youth," wrote Paul to Timothy.

The boy who has not some firm convictions and a willingness to defend them, even against the arguments of those older than himself, is not likely to amount to much, either as a boy or as a man.

But they must be convictions, not mere prejudices, not selfish impulses or passions.

I know two men who "knew more than their fathers."

One boy is the office manager of a large manufacturing concern, and his salary is \$40 a week.

"Better go on in school," said his father to him when he was seventeen years old. "Better go to college; better get all the education you can while you have the chance. You'll need it afterwards."

But the boy quit school and went to work.

He was promoted from office-boy. He was promoted from office-boy head bookkeeper, from head bookkeeper to office manager.

His path looked long and long. And then suddenly he stopped.

"You see that man?" said the president of his concern to me the other day. "There is a man who might have become general manager of this

concern if he had had a college education. His salary might have been \$20,000 a year; instead it's \$2000. He's reached his limit. What a shame that he hasn't education enough to go on."

He "knew more" than his father. And his boyish obstinacy is costing him \$18,000 a year.

I know another man who "knew more" than his father.

"Keep yourself clean, my son," said the father to him. "You'll never regret it. And some day you'll thank heaven you did."

But the boy knew more than his father. He knew that every young man who is worth his salt must sow his wild oats.

So he sowed right merrily.

I saw him the other day. He came to me about getting a job.

He was pale, and anemic, and his hands twitched, and he was forever rolling cigarettes. He could not concentrate his mind on one subject for even a couple of minutes.

I couldn't give him a job; no man could. God knows what will become of him. He would starve if it were not for the few dollars he gets from his father.

The father who, he thought, didn't know as much as he.

Youth is the mainspring of the world.

Its insurgency, its inquisitiveness, its eagerness to try the untried and do the impossible, drives the world forward in spite of the conservatism of age.

Fortunate are those of us who recognize the divine importance of youth's cock-sureness and conceit, and yet know how, gently and appreciatively, to temper it with the ripper judgment of added years.

## AUTO PARK WILL BE BEAUTIFIED

The Glendale municipal tourist and recreation park is gradually taking form. The piece of ground selected for this purpose, located at the intersection of Patterson street and Kenilworth consists of eight acres. In accordance with a well-defined plan trees and shrubbery have been planted and these are growing nicely. Later fall is the time set for extensive improvement operations at this park and it is expected that next summer it will be thrown open to the public.

Two acres are being set aside for tourist camping purposes. This will be a place where the motorist who, in his touring of Southern California happens to land in Glendale at night, may pitch his tent and enjoy the conveniences provided by this city.

Among the other features of this park will be a tennis court, swimming pool, children's pool and playground, picnic ground, etc.

### Money Involved

"I fear I'll have some heavy election bets to pay."

"I thought you never bet more than a hat or two."

"I didn't. But now my wife is betting hats with other women."

## GUEST FROM INDIA AT SEWING BEE

Mrs. H. E. Bartlett, of North Brand boulevard, was hostess Thursday at a little sewing bee for her cousin and house guest, Dr. Margaret D. Lewis, who leaves for her mission field next Wednesday. While visiting Mrs. Bartlett this summer she has been sewing for the hospital and nursery to which she is returning, at Kolar, in South India, and some of Mrs. Bartlett's friends who have become the doctor's friends, asked the privilege of helping her. They came in the forenoon and at mid-day, Mrs. Bartlett served a luncheon which included an Indian rice dish and curry. Her guests besides Dr. Lewis were: Mrs. C. F. Parker, Mrs. Lillian Dow, Mrs. Robert Philip, Mrs. H. L. Mussetter, Mrs. Washington Hunt, Mrs. J. M. Border, Miss Jennie Cornwell.

Dr. Lewis will sail from San Francisco.

## GIRL SCOUTS TO HOLD CANDY SALE

Girl Scouts of Troop One will hold a benefit candy sale tomorrow morning at 10 o'clock in the rooms of the Pearl Keller dance studio, 109 North Brand boulevard. The proceeds of the sale will be donated to the David and Margaret Orphan Home at La Verne.

The candy to be on sale will be made by the various members of the scout troop. A further donation of clothing, that has recently been contributed by the girls, will be sent to the orphan home. Miss Gladys Sharpe is the leader of this troop.

### Up-to-Date For Once

Smith—"What's the matter with Perkins? I haven't seen him for weeks?"

Jones—"Why, the poor old fossil's laid up with neuritis."

Smith—"Well, that's the first new thing he ever had I bet! I never knew him to have anything that wasn't old when Noah was a child."

Wild horses are still found in America, Australia and Russia.

### RESTORATION TO ENTRY OF LANDS IN NATIONAL FOREST

Notice is hereby given that the lands described below, embracing 60 acres, within the Angeles National Forest, California, will be subject to settlement and entry under the provisions of the homestead laws of the United States and the act of June 11, 1906 (34 Stat., 223), at the United States land office at Los Angeles, California, on September 29, 1921. Any settler who was actually and in good faith claiming any of said lands for agricultural purposes prior to January 1, 1906, and has not abandoned same, has a preference right to make a homestead entry for the lands actually occupied. Said lands were listed upon the applications of the persons mentioned below, who have a preference right subject to the prior right of any such settler, provided such settler or applicant is qualified to make homestead entry and the preference right is exercised prior to September 29, 1921, on which date the lands will be subject to settlement and entry by any qualified person. Applications may be filed twenty days prior to the above date but will not be allowed until the day set for opening thereof. Ex-service men who served during war with Germany will also have a preference right of entry for a period of sixty-three days prior to the above date. Such preference, however, is subject to the superior preference of settlers prior to January 1, 1906 and listees. The NE1/4 SW1/4 NW1/4, NW1/4 SE1/4 NW1/4, S1/2 SE1/4 NW1/4, N1/2 NE1/4 SW1/4, Sec. 2, T. 2 N., R. 13 W., S. B. M., containing 60 acres. Listed upon the application of Earl G. Ulrich of Tejon, California. List 5-2567. June 6, 1921. D. K. PARROTT, Acting Assistant Commissioner of the General Land Office.

## NEW FICTION AT PUBLIC LIBRARY

Patrons of the Glendale Public Library will probably be eager to get "The Kingdom Around the Corner," by Coningsby Dawson, one of the recent additions to the shelves, which is pronounced quite a wonderful book. It pictures a return from the war and the visions the hero brings back with him only to find them realized just around the corner. A pretty romance is interwoven.

"Galusha, the Magnificent," is by Joseph Lincoln, and that fact is a guarantee of the pleasure its readers will enjoy. It is an Atlantic coast story about an absent-minded professor.

"Modern Drama of Europe," by Storm Jameson, will be welcomed by members of the Dramatic Section of the Tuesday Afternoon Club.

"Princess Salome," by Burrie Jenkins, is a novel founded on history which will appeal to many readers.

"The Silver Sixpence," by Ruth Sawyer, is a sweet little Irish romance.

"The Coming of the King," by Bernice Babcock, is a rather unusual book and is recommended to thoughtful persons.

"Creole Tales of New Orleans," by Grace King, gives a good picture of family life in the Crescent City in the old days.

"Timber Wolves," by Bernard Cronin, is an adventure story interwoven with a tale of mystery.

"Poor Man's Rock," by Burton W. St. Clair, is an entertaining story of the north.

## UNION WORKERS TO GIVE BIG PICNIC

The annual picnic and outing of Carpenters' Local No. 563, Painters' Local No. 713 and the Womans' Union Labor League No. 400 will be held tomorrow at Brookside Park, Pasadena. Those who expect to attend are asked to meet Saturday at 2 o'clock at the corner of Maryland avenue and Broadway.

The picnic will take the form of a basket luncheon. Members of the various organizations are asked to invite their friends to attend.

### Selling for \$65 Too

I understand that there is only about \$5.27 worth of wool in the new "all wool" fall suits.

Horrors! I'd not be seen in such an indecent outfit.

The world's most famous piano—the choice of the greatest musicians and those who know. We carry a complete line of grands and uprights.

## POSTMASTERS TOLD BIDS ON SCHOOL TO CURTAIL ALL EXTRAVAGANCE

Warlike Spending Ordered  
Stopped—Readjustment  
All Along the Line

(By International News Service)  
WASHINGTON, Aug. 5.—Post-war readjustment at the larger post offices throughout the country is to begin at once, according to detail instructions that have been sent to about 10,000 postmasters by the Post Office Department. These instructions called attention to the acute financial condition of the country and to the urgency of meeting the desire of the President for economy in public expenditures as far as possible in the Postal Service.

While aiming at extravagant and expensive methods which crept in during and immediately after the war, positive instructions have been given to postmasters to keep constantly in mind that the service must not be curtailed or impaired.

## MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys  
if Back Hurts or Bladder  
Bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority, who tells us that meat forms uric acid which almost paralyzes the kidneys in the effort to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach aches, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

Bids on a variety of small contracts to complete unfinished work at several of the city grammar schools will be called for within a short time. It is the plan of R. D. White, superintendent of schools, to have this work completed before the opening of school.

For the accommodation of pupils who will come to the Central Avenue School this year from the Grand View District, floors will be laid in two semi-basement rooms to furnish much needed space.

A cement sidewalk and drinking fountain will be built on the west end of the Intermediate School. Broad-School contracts will include cement sidewalks and a flag pole.

tures at the post office, which will amount to approximately \$5,000,000 out of the \$15,000,000 to be saved in postal expenditures for the current fiscal year, have been under way for several months. Careful comparisons of expenditures with the receipts and business transacted have been made. Business and receipts at many offices doubled and trebled, incident to the war, and clerical and carrier forces were increased accordingly, including extraordinary expenditures for auxiliary and substitute service, as well as for overtime. The general survey of postal conditions shows that, while this emergency has long since passed and with population and business greatly lessened at many of these larger offices, there are few that have made any appreciable curtailment in expenditures or voluntarily surrendered any clerks or carriers. On the other hand, the general survey shows, expenditures for auxiliary help have continued undiminished, overtime has apparently been unnecessarily employed, and repeated requests have been made for additional clerks and carriers.

**SCHEDULE REVISIONS**  
Postmasters are asked to consider the revision of schedules of clerks and carriers; the shifting of forces from one section to another, according to the volume of work, and to arrange the work of the office so as to avoid the necessity for overtime work, as well as to carefully scrutinize all miscellaneous expenses of their offices.

Public participation in this effort to save at post offices is suggested by use of mail receptacles at residences and business houses. Early mailing facing of mail, use of pre-cancelled stamps and simple routing of mail by heavy users of the mail are urged as an aid to economy, as well as in the quick dispatch of mail.

## SOMEBODY'S DARLING.

Into a ward of the whitewashed walls,  
Where the dead and dying lay,  
Wounded by bayonets, shells, and balls,  
Somebody's Darling was borne one day.  
Somebody's Darling, so young and brave,  
Wearing yet on his pale, sweet face,  
Soon to be hid by the dust of the grave,  
The lingering light of his boyhood's grace.

Matted and damp are the curls of gold,  
Kissing the snow of that fair young brow;  
Pale are the lips of delicate mould—  
Somebody's Darling is dying now.  
Back from his beautiful blue-veined brow  
Brush all the wandering waves of gold,  
Cross his hands on his bosom now,  
Somebody's Darling is still and cold.

Kiss him once for somebody's sake,  
Murmur a prayer soft and low;  
One bright curl from its fair mates take,  
They were somebody's pride, you know;  
Somebody's hand had rested there—  
Was it a mother's, soft and white?  
And have the lips of a sister fair  
Been baptized in those waves of light?

God knows best; he has somebody's love;  
Somebody's heart enshrined him there;  
Somebody waited his name above,  
Night and morn on the wings of prayer.  
Somebody wept when he marched away,  
Looking so handsome, brave, and grand;  
Somebody's kiss on his forehead lay,  
Somebody clung to his parting hand.

Somebody's waiting and watching for him—  
Yearning to hold him again to the heart;  
And there he lies, with his blue eyes dim,  
And the smiling, child-like lips apart.  
Tenderly bury the fair young dead,  
Pausing to drop on his grave a tear;  
Carve on the wooden slab at his head—  
"Somebody's Darling slumbers here."

—MARIE R. LACOSTE

## POPULAR SCIENCE

Some kind of marine agriculture, dealing with the improvement and multiplications of sea-plants, is suggested by Dr. Albert Mann of the Carnegie Institution, and in Ecology he points out that the basic material of such a science, forming the fundamental connecting link with the inorganic world, will be found in the great family of single-celled algae known as diatoms. They are the grass of the sea, the fundamental food supply. In bulk or animal productivity they surpass all other aquatic plants a thousand fold, and are so minute as to be available as food for the smallest animals, while they are so abundant as to constitute the entire supply of some larger forms. Existing in the shallow waters of all latitudes, they are also almost the only prolific form of plant-life of the open ocean. The many general and thousands of species differ widely, and are variously adapted for salt and fresh water, and for arctic, temperate, torrid, and local conditions. Some exist on the bottom, some on the surface. Though some fishes—like the menhaden—feed chiefly on diatoms, other aquatic food animals

prefer a mixed or carnivorous diet, but even these depend on the rich fauna fed by the fertile diatom fields.

Bacteria move about at greatly varying rates. Late experiments by the director of the Hygienic Institute in Rome showed the cholera vibron to be the fastest of any observed, traveling at the rate of eighteen inches an hour in agar-agar culture of room temperature, and brought out the curious fact that speed is not controlled by the cilia, the organs of motion, as the cholera organism has only one of these while slower movers have several.

In the Mount Wilson solar cooking apparatus, the heat is applied indirectly through an oil-circulatory system, with a reservoir for the ovens. Except frying, all kinds of domestic cooking and the preserving of fruits and vegetables have been successfully tried.

The addition of a largely increased proportion of yeast is claimed to yield bread of improved quality. In Philadelphia experiments flour containing 5 per cent of yeast powder was used, and the bread was found to be much increased in nutritive value, while still being palatable. The yeast, aside from its aerating effect, is a nutrient of importance, adding both protein and vitamins to bread.

New or temporary stars, of which a dozen or so have been recorded, blaze up suddenly and disappear after a few weeks or months and Nova Casiopeae, which appeared late in 1572 and lasted eighteen months, could be seen in daylight when at its brightest. Most of these stars are still visible with large telescopes, a photographic record of their condition being kept with the 40-inch Lowell reflector. From a report by C. O. Lambland, it appears that Nova (T) Aurigae, 1891, with present magnitudes of 15 and 14.7 have shown only slight variations of light in the few years covered by the photographs. Nova Persei, 1901, on the other hand, fluctuated strikingly between February, 1917, and December, 1920, and ranged in magnitude from 13 to 15, a change of two magnitudes. The nebulosity apparently broken away from it, first seen by Barnard in 1916, has been frequently photographed. This nebulosity has appreciably changed its form, and is moving away from the star about a quarter of a second of arc a year. Nova Geminorum 1, 1903, now fainter than magnitude 16, is still fading. Nova Lacertae, 1910, has continued some years quite constant at magnitude 14.5 and Nova Geminorum 2, 1912, is fading with some fluctuations, from its present magnitude 13.5. Nova Monocerotis, 1918, never very bright, had dropped from magnitude 10 below magnitude 15 by November, 1920.

A new self-lubricating alloy for high-speed bearings consists of as high as 40 per cent of graphite, with lead, tin and copper. The powdered mixture is molded under pressure into bushings for bearings, which are baked, and then finished by grinding. The product, resembling bronze in appearance, is so porous that it is said to absorb as much as 2½ per cent of its weight of oil—making it practicable to apply oil from the outside if necessary.

A new electrical egg tester comprises a box containing a dry battery and a lamp bulb. Projecting from the top of the box is a cylindrical hood. Placing an egg on top of the hood closes the lamp circuit and inspection

## ENORMOUS FREIGHT PASSES THROUGH PANAMA CANAL

WASHINGTON, Aug. 5.—The Panama Canal handled 331,000 tons of cargo from the Atlantic to the Pacific in May. Sixty-four per cent originated on the eastern coast of the United States, 23 per cent (all petroleum) from Mexico, 7 per cent from the United Kingdom, and 5 per cent from Continental Europe.

Of this westward traffic, 36 per cent went to our own western states, 24 per cent to the Far East, 20 per cent to the west coast of South America, 15 per cent to Australia.

The traffic moving eastward was heavier, totalling 411,000 tons of cargo. Our western coast led in the proportion of shipments, having 44 per cent. The west coast of South America followed with 26 per cent. Australia was third, with 12 per cent, and Hawaii fourth, with practically 10 per cent, all sugar.

Of this eastward traffic 36 per cent moved to the eastern coast of the United States, 28 per cent to the United Kingdom, and 26 per cent to Continental Europe.

The year which has closed was the best the Panama Canal has yet had. Even so, receipts from tolls, \$12,280,000, lacked \$4,200,000 of meeting the Government's expenditures for the canal.

In 1920, the Suez Canal, the accounts of which have now been published, had an excess of receipts over expenditures of 191,000,000 francs, or, say, at present rates of exchange about \$15,000,000. On top of that there were 101,000,000 francs of profits in exchange. Altogether, the shareholders got dividends of 280,000,000 francs. The quantity of goods carried through the Suez Canal in 1920 was 22 per cent larger than in 1919, but still 34 per cent under the traffic of 1913. The great improvement was in manufactured goods going to the countries beyond Suez. The outward-bound traffic was 6,318,000 tons. Before the war, the American flag scarcely counted at Suez; it has now got up to fifth place in the percentage of tonnage it covers.

of the egg by the familiar method of looking through it toward the light reveals its quality or soundness.

A captive balloon with a metal cover having many spiked projections is the suggestion of Hermann Pliginsk for a collector of atmospheric electricity. With such a balloon of a height of 1,000 feet he has obtained 17.28 kilowatt hours of electric energy daily. This was increased to 91.6 kilowatt hours when two balloons were used; and he has calculated that an annual supply of as much as 210,000 kilowatt hours should be obtainable with a battery of ten balloons.

Lessening manufacturing waste as well as promoting forest growth is being sought by the U. S. Forest service. It is found that in logging and manufacturing an average tree actually yields as seasoned rough lumber only 33 per cent of its total volume. Of the rough lumber, only 85 per cent reaches the finished manufactured form in planing mills and sash and door factories; and only 75 per cent becomes the finished parts of furniture and vehicles. In turning, two tons of high grade hickory, a fast-twisting material, yielded only 400 pounds of material.

Trench maps which were printed for military use on strong canvas are now being used to make inner soles for tennis shoes.

The density of ice is less than that of water, and for this reason it floats.

## Five Dollar Gold Pieces For \$4.50?

No one could make this offer and get away with it very long. But The Daily Press offers a bigger bargain than the above. At least dozens of our readers have told us so. The big value is in the Classified Ads. It may cost you 30 cents or 50 cents or, if it runs several days, a dollar, but it is almost a certainty if you have

## Something to Sell The Public Wants

you will make more money from the insertion of a Classified Ad than were we to give you a \$5 gold piece for \$4.50. Hundreds of people testify to the selling power of Daily Press Classified Ads. If you have a house, a lot, an automobile, poultry or, in fact, anything you want to sell try a Classified Ad in The Daily Press and you will be surprised at the results from such a small investment.

## Costs Little and Results are Big

There is nothing that will pay better in results than a Classified Ad. Hundreds of people can testify to this fact, and you will do the same after you have given the proposition a thorough trial in this paper.

## PERSHING IS INVITED BY VETERANS OF 91ST DIVISION

"Black Jack" Pershing may attend the Ninety-first's reunion, to be held in Los Angeles, September 24 and 25. A cause dear to the heart of the former head of the American Expeditionary Forces and present chief of staff of the United States Army, General John J. Pershing (as he is more formally known) will be advanced by his presence at the get-together of the Wild West division, J. W. Sutphen, one-time aide to the general, points out in a letter of invitation just forwarded to him at Washington. "We trust you will be present, not only because of the honor it would confer upon us, but also because of the help your presence would be to us in the reorganization of the Ninety-first division as one of the reserve divisions of the Ninth Army Corps," the letter says. Pershing is endeavoring to get every man who served during war times to join the reserve.

Assembly of the colors and standards of the various units of the division—361st, 362nd, 363rd and 364th infantry, 346th, 347th and 348th Machine Gun Battalions, 316th Engineers and 346th, 347th and 348th Field Artillery—at the reunion is planned. They will be presented to General Pershing in what is declared to those who witnessed it in France to be one of the prettiest and most impressive military ceremonies there is; a ceremony which never has been performed on this country. Governor Stephens has also been invited to the reunion. Roy E. Natfizer, general chairman of the gathering, is to invite governors of the six other Western states which sent men into the Ninety-first—Washington, Oregon, Idaho, Montana, Utah and Nevada.

### GLENDALE PHOTOS EXHIBITED ABROAD

Ed Weston, the Glendale photographer, whose artistic work has made him famous in the photographic world both in this country and abroad, reports that he has placed some pictures in the California Camera Club's Exhibit in San Francisco. Miss Margrethe Mather, who is now associated with him, has also contributed. They already have an exhibit in Mexico City, which has been very favorably noticed by the Mexican press and are sending to the London exhibit this month.

Mrs. Weston and her four boys are at Clifton by the Sea, where Mr. Weston joins them week ends.

Somehow or other we couldn't get very enthusiastic about a holy war to make Mexico safe for the oil crowd.

## Give More Importance To Life's Little Things

(H. M. Greene in Woman's World)

When we read the life story of our truly great men, there is set down for us the important events in their lives, or at least those events that historians conclude were deciding factors in the making of character, or episodes and incidents that revealed the purpose and character of these men whose lives were to influence many other lives. But, despite all these it is some little thing that tells the story. At best we can only skim the stream of life. We can only judge by what we see upon the surface. We read what the man says; we see what he does; but what has gone on, down deep in these men's souls, we know nothing about. It is as we watch the stream that flows steadily toward the sea, we see only the movement on the surface, the agitation, or perhaps a tiny thread of blood that comes to the top that suggests a bitter conflict beneath.

Consider Abraham Lincoln. A tall, sad man; an angular, patient man with a face roughly molded in the lines of care. A shawl across those shoulders that were inclined to bow beneath the affairs of state. A stove-pipe hat upon his head. His right hand upon his heart as he walked restlessly into the peace and quiet of the evening shadows. Surrounded day by day by sycophants and traitors, he was forced into silent isolation. Facing the jealous ambitions of his own generals, meeting disheartening defeat and international intrigue, still into those hands that had swung the woodman's axe an all-seeing Providence had placed the destiny of our nation. It seems so utterly in

adequate to say of him, He was a great man.

His public speeches from the beginning of his career had been rich in philosophy, truth and logic. Many, many books have been compiled of his wisdom taken from his public utterances and his state papers.

But with all these volumes, there are two things he wrote—you could hardly call them little things, yet all together they do not make a thousand words—two things that speak to every human heart of the greatness of Lincoln as a man. One of these is the Gettysburg speech, and the other the letter to Mrs. Bixby, whose sons had been killed in the war.

But you will find to most great men a great many seemingly little things become important. Sir Walter Raleigh, perhaps, did not think of crawling into history when he spread his cloak in the mud that Queen Elizabeth might have easy going, nor did Lord Chesterfield imagine when he wrote his letters on manners, dress and social customs to his dissolute and ill-mannered son that his admonitions would become famous essays. History records many such "little things" that become important.

There is, in fact, an importance in everything we do, and it is easy enough to test them. Is it right or wrong? Is it ugly or beautiful? Is it kindly or unkindly? Does it help or hinder? Is it creative or destructive? We cannot and we do not expect one hundred per cent perfection. But we can give and do more for ourselves and in turn have more for ourselves by giving more importance and thoughtfulness to the little things. The little trifles that, taken together, make the picture.

## GOOD WISHES FOR HORNING FAMILY

The farewell reception for Roy Horning and family at the home of Mr. and Mrs. F. C. Richardson, 1300 South Central avenue Thursday night, proved a very pleasant affair although entirely informal. There was no program and no speeches were made, the evening being devoted to visiting and a general good time, with refreshments at the close served by the hostess who was assisted by Mrs. H. L. Goldsborough.

Accompanied by his family Mr. Horning will leave next week for a new Y. M. C. A. field to which he has been assigned in Montana. The Hornings have been residents of Glendale for several years and identified with the Tropic Presbyterian Church. They will be missed there and in social circles in the south part of the city.

### Punctilious Pat!

Paddy was working quite hard one day  
Buried in earth to his knees,  
With pickaxe and spade he was digging away  
To plant some shady trees.

A lady was passing and spoke to Pat  
"Good morning," to Pat said she.  
"Bejabbers y're working quite hard at that."

Digging out holes I see!"  
"By golly, y're wrong!" said Pat,  
turning round,  
Stopping to wipe his face,

"Tis the earth I'm digging out of the ground,  
I'm leaving the holes in their place."

The marriage is more permanent  
If she has a forgiving spirit and a  
conviction that there is no chance to  
get alimony out of him.

## RELIEF SUPPLIES TO WEST RUSSIA

(By International News Service)

WASHINGTON, Aug. 5.—American relief supplies may be moving into the more accessible parts of Western Russia, to relieve the famine and disease victims before another week passes, if the soviet Russian authorities fulfill expectations and meet the relief aid conditions laid down by Secretary Hoover.

Walter Brown, director of relief in Europe for the American relief administration due in Riga, August 10, will begin discussions immediately with the soviet representatives if by that time American prisoners now said to have been released are outside Russian territory.

The relief administration's stocks of supplies, both medical and foods, are being increased at Danzig and arrangements also have been made to facilitate the movement from other points to points in Russia which may be most easily reached.

Probably not less than \$1,250,000 a month will be spent in the United States for supplies, including food like milk, fats and cereals of varieties most suitable for the starving children.

### Bridget's Ultimatum.

She was the new cook and anxious to please. So was the mistress that she should especially on a certain evening when there was company for dinner. To the consternation of the hostess, appeared Bridget, holding before her a plate of tomatoes, but minus her waist and skirt. "Well, ma'am," she said, "I did it—did what ye told me, bring the tomatoes in undressed; but I'll lose me place first before I take off another stitch!"

## GIRL EDITOR GETS IN DIRECT CONTACT WITH READERS

(By International News Service)

ST. LOUIS, Mo., Aug. 5.—Three months actual experience as a telephone operator following her graduation from the journalistic department of the Missouri State University, in order to obtain needful information for her new job as associate editor of the Southwestern Telephone News, is the unique record made by Miss Sue Patton, of St. Louis. She has held her present position for more than a year and attributes her success in it to the knowledge she gained as "hello girl" at the switchboard of the Olive Street Exchange, St. Louis. In short, she knows just what sort of material the girls want to see in the monthly magazine and just how to obtain from them what they do know.

The position Miss Patton holds was made for her in the nature of an experiment by the company officials, following their attempt to get one of their girls who could write. They were afraid the average college girl would not get the right slant on the position, hence the giving of such an experience to Miss Patton.

Miss Patton was graduated from college with a bachelor of arts degree in 1920, and went to Canada to do newspaper work. Later she returned and took the journalistic degree. She was then told of the need in St. Louis for such a position, if she would work as an operator for several months. Pending the placing of her there she worked on an Oklahoma paper for several weeks.

Then, as she tells the story, "I was sent for to work on the switchboard in St. Louis. I went with fear and trembling and reported to the schools, only to be turned down. However, that matter was fixed up and I started in on the most strenuous work I have ever attempted. Covering the wildest story in the world could not compare with it, and I generally ended the day in a gale of tears. Only my determination kept me there. Finally I arrived at the place where I was a real operator and I certainly had more respect by that time for the girls who had answered my "hello" over the telephone. The girls came to know me just as one of themselves and I liked them. It all stands me in good stead now. In return I have written for their magazine fairy stories of a sort that puts into fanciful shape some of the things they do each day. I have endeavored to give them imagination in their daily tasks and ambition.

"There is no way that helps to hold a position higher as much as by working with those of the ranks first. It gives you understanding that is valuable. My friends tell me the system is better since I quit operating and became an editor—maybe so."

### PUBLIC UTILITY RECORD

Quite a number of Glendale residents, new and old, are on the move. The Public Service department show the following moves were made yesterday:

Mrs. Dougherty, from 441 West Milford to 444 West Milford; Mrs. Dosssett, from 332 North Louise, to Los Angeles; W. R. Harvey, from 1115 Campbell to 215 West Los Feliz road; Mrs. Wagner, from 465 Myrtle to 125 Cypress; Mrs. Cook, from 207½ East Broadway; L. Larcon, from 132 South Adams to Los Angeles; W. H. Lindwood, from 143½ North Glendale, to 1115 East Wilson; W. C. Harris, from 100 South Brand; Mrs. Taylor, from 123 North Everett; D. Moore, to 430 Pioneer drive; Mrs. F. Campbell, to 1246 East California; Clyde Ashler, to 139 South Pacific; August Elsen, to 125 East Elk.

The following light meters were installed yesterday: R. M. Harman, at 240 Ivy; W. J. Barnes, at 452 Salem; G. A. Stoddard, at 625 North Columbus; Frank Frost, at 503 East Windsor; R. J. Phillips, at 114 South Columbus.

### NEW GROCERY STORE

George B. Brooks, wife and children, who recently moved here from Galveston, Tex., have located at 836 South Glendale avenue, where Mr. Brooks has rented C. W. Bacon's nearly completed store and apartment building and will open in the near future with a complete stock of groceries.

### BLAST THIS IMPUDENCE!

Mrs. Linkogel, 560 Riverdale drive, has reported to the police that two of her prize ducks were stolen and killed. The offender added insult to injury by leaving the head of one of the fowls in Mrs. Linkogel's backyard.

### ROBBERY AT TUJUNGA

Twelve automatic revolvers recently were stolen from the store owned by Dawson at Tujunga. The theft was reported to the Glendale police yesterday.

The present population of Brazil is one-fourth that of the United States.

### NOTICE OF SALE OF REAL ESTATE UNDER EXECUTION

Sheriff's Sale No. B-92349

George H. Walker, Plaintiff, vs. H. B. Crocker, et al, Defendants.

By virtue of an execution issued out of the Superior Court of the County of Los Angeles, State of California, wherein George H. Walker, plaintiff, and H. B. Crocker and Inez Crocker, defendants, upon a judgment rendered on the 10th day of May, A.D. 1921, for the sum of Seven Hundred Six and 33-100 (\$706.33) Dollars lawful money of the United States, besides costs and interest, I have levied upon all the right, title, claim and interest of said defendants, H. B. Crocker and Inez Crocker, of, in and to the following described real estate, situate in the City of Glendale, County of Los Angeles, State of California, and bounded and described as follows:

The following described property, in the City of Glendale, Los Angeles County, California, described as follows:

All that portion of Lot One (1), of Tract No. 919, as per map in Book 18, Page 75, of Maps.

Excepting therefrom:  
FIRST: Commencing at the S.W. corner of Lot "A," of said Tract 919; thence N. 5 degrees 27 minutes W. 839.19 feet along the Easterly line of said Lot "A," and the Easterly line of Lot One (1) of said Tract, to the N.E. corner of Lot One (1); thence S. 84 degrees 41 minutes W. 192.1 feet, thence N. 70 degrees 53 minutes West, along the Northerly line of said Lot One (1) 62.13 feet; thence S. 5 degrees 27 minutes E. parallel with the Easterly line of said Lots One (1) and "A," of said Tract, to a point on the Southerly line of said Lot "A," 250 feet Westerly from the S. E. corner of said Lot "A"; thence North 84 degrees 33 minutes E. along the Southerly line of said Lot "A," 250 feet to beginning.

SECOND: Commencing at a point on the Southerly line of Lot "A," Tract 919, distant 250 feet Westerly from the S.E. corner of said Lot "A"; thence North 5 degrees 27 minutes W. parallel with the Easterly line of said Lot "A" and Lot One (1), 400 feet; thence South 85 degrees 33 minutes W. 92.51 feet; thence South 32 degrees 31 minutes 45 seconds West 255.79 feet; thence South 5 degrees 27 minutes E. 200 feet to a point on the Southerly line of said Lot "A"; thence North 84 degrees 33 minutes E. along the Southerly line of said Lot "A," 250 feet to beginning.

**PUBLIC NOTICE IS HEREBY GIVEN**, That I will, on Monday, the 8th day of August, A.D. 1921, at 12 o'clock M. of that day, in front of the Court House door of the County of Los Angeles, Broadway entrance, sell at public auction, for lawful money of the United States, all the right, title, claim and interest of said defendants, H. B. Crocker and Inez Crocker, of, in and to the above described property, or so much thereof as may be necessary to raise sufficient to satisfy said Judgment, with interest and costs, etc., to the highest and best bidder.

Dated this 14th day of July, 1921.

WM. L. TRAEGER,  
Sheriff of Los Angeles County.

By W. T. OSTERHOLT,  
Deputy Sheriff.

CARROLL ALLEN,  
Plaintiff's Attorney.

Date of first publication, July 15, 1921.—4t weekly.
